IN-HOME VISIT CONSENT FORM

USAG ITALY-VICENZA MILITARY COMMUNITY

In response to concerns of unauthorized childcare in Government-Owned and Government-Leased Army Family Housing (AFH) and Unaccompanied Personnel Housing (UPH) across the Army, Installation Management Command has mandated Army-wide implementation of procedures to mitigate the risk of harm to children in unauthorized childcare. In accordance with this mandate, U.S. Army Garrison Italy Child & Youth Services (CYS) management personnel will visit homes within two (2) working days of receiving a notification that a resident of AFH or UPH is providing unauthorized childcare to verify whether the resident has a valid Family Child Care (FCC) home certificate. Allowing a CYS representative to visit your residence in-person for the purposes of this Army-wide initiative is voluntary.

If you consent to an in-home visit, a management representative from CYS will enter your home and may be accompanied by a representative from the Army Housing Office to determine if an individual is providing childcare to unrelated children in the home more than (ten) 10 childcare hours per week on a regular basis. You may withdraw your consent at any time during the visit.

If you elect not to consent to an in-home visit, CYS personnel will not enter the home.

Initial **one** of the following options:

_____ (Initial) I understand that the decision to have a CYS management representative conduct an in-home visit for the above purpose is voluntary, and I choose to **consent**.

_____ (Initial) I understand that the decision to have a CYS management representative conduct an in-home visit for the above purpose is voluntary, and I do **not consent**.
