

BIO Container for Food Waste/Organic Material at Housing

KITCHEN waste:

- ✓ Bones
- ✓ Coffee grounds / Tea / tea bags
- ✓ Egg shells
- ✓ Food scraps
- ✓ Fruit (peels etc.)
- ✓ Meat / Fish (small amounts)
- ✓ Vegetables

YARD Waste:

- ✓ Branches / Leaves
- ✓ Bush cuttings
- ✓ Flowers
- ✓ Grass / lawn clippings
- ✓ Plants and weeds

Handling:

- Put a few pages newspaper on the bottom of the container to absorb moisture and to keep the container clean.
- Collect kitchen waste in Bio paper bags or newspaper to soak up moisture!
- Place Bio bin in a shady place.
- Keep Bio bin closed to avoid odors.
- Wash out Bio bin periodically.

Do not use common plastic bags for collection of Bio waste!

No Dog droppings!

No Diapers!

No Trash!

Do not throw any plastic, metal, or glass in the brown container!

Bio paper bags available at the Recycling Center Katterbach Bldg 9024, only for single/duplex houses where the brown bio container is in place.

Mixing incorrect material will reduce the quality of compost. The contractor will not empty your Bio bin if mixed waste is found in the container.
