Answers to Community Questions

1. I have questions about the Shipton Mail Office. These boxes make it convenient for Soldiers to get mail that don't have a car but we don't have a drop box open 24 hours on this Kaserne. Can we get a drop box at this location that's accessible when they are not open? Or possibly a Blue USPS box in a centralized location on Shipton?

   Yes, we can place a blue USPS drop box at Shipton. Our Postal team submitted a work order to have one installed.

2. Also, does this post office have the capability to mail out packages? I haven't asked before but I don't see any scales whenever I am there. Is this "Coming Soon" in the scheme of things?

   We do not have the capability to mail out packages at Shipton. Customers will have to mail packages at Katterbach Postal Service Center, Bldg 5817 or at the Postal Service Center, in Storck, bldg. # 6508

Mold Season Is Here!

What can we do?

• Keep Humidity below 60%. 30-50% Ideal!
• Use ventilation fans if you have them while showering and cooking. Keep them on for a while after you are done.
• Open windows to vent out humidity and bring in dryer air. At least 20 mins a day, Mid Day is the best time.
• If not humidity find the water source. Fix leaks, clean up moisture/standing water, check weather seals.
• Dispose of any water damaged items instead of attempting to dry them out or clean them. (Boxes, Carpets, Papers, clothing, Etc.)

How can we get rid of it?

• When Cleaning Mold or Mildew WEAR GLOVES and EYE PROTECTION, N95 Mask recommended (found at Hardware stores)

• NATURAL MOLD REMOVER RECIPE
  • 2 tablespoons Borax, 1/4 cup white vinegar, 2 cups hot water
  • Combine the ingredients above in a bowl, stirring until the borax dissolves. Pour into a spray bottle and liberally apply on surfaces. Scrub thoroughly and wipe clean. Spray again and let sit 10 minutes before wiping dry.

• BLEACH-BASED MOLD REMOVER (for stubborn mold)
  • CAUTION!!!! Never Mix Bleach solution with any other cleaners or solutions
  • Ensure you have good ventilation in the room you will be cleaning, prevent pets and children from entering.
  • 1/4 cup bleach, and 2 cups warm water
  • Combine the ingredients above in a spray bottle check solution on small part of surface, before applying liberally. Scrub thoroughly and wipe clean. If any mold remains, reapply and let sit 15 minutes before scrubbing. Spray again then wipe clean.

Work Orders

Information from IMCOM HQ Guidance for Service Order Priorities

Priority 1, Emergency (response within 2 hours)

Emergency work takes priority over all work and requires immediate action to cover the emergency. Usually, work will be classified as an emergency when it consists of correcting failures/problems which constitute an immediate danger to life, health, mission, security or property. Normal response to emergency work is within 2 hours. Once the emergency is mitigated, another Demand Maintenance Order that falls under urgent or routine work may be needed to finalize repair.

Priority 2, Urgent (response within 7 days)

Urgent work is required to correct a condition, which could become an emergency, could seriously affect morale or has command emphasis. As a general rule, the DPW will make every effort to accomplish all urgent work within 7 working days of receipt of the request.

Priority 3, Routine (response within 30 days)

Routine work does not meet the category of emergency or urgent. This category covers required work which, if not accomplished, would only continue to be an inconvenient or unsightly condition. Work in this category will normally be accomplished on a first-come first-served basis. Every effort will be made to respond to and complete routine work within 30 days.
## IMCOM definition of Life/Health/Safety (LHS):

Any emergency or urgent condition that, if not corrected, may cause harm or injury to a person

During the summer months, temperatures in Germany can reach 90 degrees Fahrenheit and warmer, and for residents of U.S. Army Garrisons these temperatures can prove uncomfortable. Though air conditioning units might seem an adequate solution, IMCOM AC Policy dated July 2018 prohibits the use in permanent-party and transient-party occupied facilities.

• **Exceptions to Policy**
  
  • The operation of a portable cooling device in Family Housing (FH) may be approved by the garrison commander if a medical condition warrants the installation. Request must be processed through MEDCOM and the housing office. If permitted, purchase of the portable device is the responsibility of the FH resident. DPW will install and residents may be charged for installation and removal. Unauthorized units may be removed by the garrison DPW; resident may be charged for removal.

Sadowski Theater
BLDG 5844, Bismarck Kaserne
The “Bismarck” Theater is formally recognized as the “Sadowski Theater”

In honor of SGT Joseph Sadowski

World War II Congressional Medal of Honor Recipient
SGT Joseph Sadowski

Served as a tank commander in the United States Army in Company A, 37th Tank Battalion, 4th Armored Division. He was killed in action for his gallantry acts during the battle at Valhey, France.

For conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty at Valhey, France. On the afternoon of 14 September 1944, SGT Sadowski as a tank commander was advancing with the leading elements of Combat Command A, 4th Armored Division, through an intensely severe barrage of enemy fire from the streets and buildings of the town of Valhey. As SGT Sadowski's tank advanced through the hail of fire, it was struck by a shell from an 88mm gun fired at a range of 20 yards. The tank was disabled and burst into flames. The suddenness of the enemy attack caused confusion and hesitation among the crews of the remaining tanks of our forces. SGT Sadowski immediately ordered his crew to dismount and take cover in the adjoining buildings. After his crew had dismounted, SGT Sadowski discovered that one member of the crew, the bow gunner, had been unable to leave the tank. Although the tank was being subjected to a withering hail of enemy small-arms, bazooka, grenade, and mortar fire from the streets and from the windows of adjacent buildings, SGT Sadowski unhesitatingly returned to his tank and endeavored to pry up the bow gunner's hatch. While engaged in this attempt to rescue his comrade from the burning tank, he was cut down by a stream of machinegun fire which resulted in his death. The gallant and noble sacrifice of his life in the aid of his comrade, undertaken in the face of almost certain death, so inspired the remainder of the tank crews that they pressed forward with great ferocity and completely destroyed the enemy forces in this town without further loss to themselves. The heroism and selfless devotion to duty displayed by SGT Sadowski, which resulted in his death, inspired the remainder of his force to press forward to victory and reflect the highest tradition of the armed forces.

We now have complete access to the VA! (VBMS)
UPDATE, May 22: Today’s clinic was very well attended. Some veterans arrived as early as 6 a.m. to be first sign in, but the line went quickly with many past warriors trading stories about when & where they served, who they knew, etc.

Army Community Service is hosting a Veterans Affairs Overseas Claims Clinic, 8 a.m.–5 p.m., May 22, and noon to 5 p.m., May 23, at ACS, Bldg. 2915, Panzer Kaserne.

VA representatives will be present to assist with filing claims, obtaining the status of pending claims, and to provide information regarding VA benefits to active duty service members, retirees, veterans, family members and widowed spouses.

Walk-ins only—clients will be seen on a first come, first seen basis (*this is change in process, as appointments won’t be made, just walk-ins only*).

Bring a copy of your DD-214, both military civilian medical records as well as any supporting evidence.

Call ACS at 431-3362 or 07031-15-3362 for more information.
