

Important Notes

- Appoint/ confirm responsible Environmental Officer in the Rear Detachment and provide EMD their appointment orders.
- Check all equipment for drainage requirements. Order additional containers (e.g. waste oil, waste fuel) if necessary.
- Ensure proper labeling when transporting hazardous materials downrange. Transportation stickers can be purchased on the economy.
- Ensure that confidential documents are disposed of properly.
- Inform your soldiers regarding abandoned POVs. Old POVs can be turned in to MWR strip yard.
- **Call Fire Department in case of spill and follow the RED PLAN!**

Deploying?

**A CHECKLIST TO DETERMINE IF YOU ARE
IN COMPLIANCE WITH ENVIRONMENTAL
REGULATIONS BEFORE YOU DEPLOY**

**ENVIRONMENTAL MANAGEMENT DIVISION
(EMD)**

February 2014

Hazardous Materials / Hazardous Waste

- Substances (e.g. petroleum, oil, lubricants, pesticides, solvents, chemicals, etc.) that may, because of their chemical nature, pose a threat to human health or the environment when handled improperly.
- **HM** can be identified by warning labels (for example, flammable, corrosive, toxic, etc...).

ATTENTION: Anything contaminated with these materials is considered hazardous waste as well.

Solid Waste

The on-post Recycling Centers accept all recyclables, such as: e.g. paper / cardboard, plastic, glass, cans / aluminum, metal, bikes, wood, bulky items, electronic waste, tires, Styrofoam, batteries, household HW, etc.

Deployment Checklist For Environmental Compliance regarding HM / HW...

- Check the Motor Pool for HM items. Collect and store all items that will not expire in the Safe Tank.
- Update HM inventory and check if MSDS are available for all HM.
- Develop inventory for all expired or soon to expire HM
- Extend the shelf-life on your own, by visiting this website: <https://headquarters.dla.mil/j-3/shelflife/SLES/SLESearchExt.aspx> . If your item is extendable, print out a shelf-life extension sticker and put it on each product.
- Collect all expired HM or soon to expire HM that cannot be extended, to be disposed of as HW at the unit's Hazardous Waste Accumulation Point (HWAP).
- Contact HazMat Reuse Center in Grafenwöhr / Vilseck to share excess HM with other units.
- Check hazardous waste storage capacity and schedule disposal of HW via DPW Environmental Management Division (EMD).
- Secure all gas cylinders properly.
- Storage of fuel is not allowed. Contact your G4/S4 in time to bring excess back into the system.

... and regarding Solid Waste / Government Owned Items

- Check the Motor Pool for all items that will not be taken on the deployment and separate between government owned items and solid waste.
- Check for any privately owned equipment to be disposed of (e.g. refrigerators or microwaves, etc...)
- Follow DLA Disposition Services turn-in procedure for all government owned equipment, especially all items listed on the unit's Hand Receipt / Property Book
- Collect all solid waste and bring to one of the Recycling Centers.
- Check solid waste storage capacity and schedule additional pickups as necessary via DPW SORT Coordinator.
