

RECYCLING System

Kitchen Grease/Oil Disposal

- **Never pour grease/oil or any other food down the kitchen drain or toilet!**
 - Will clog pipes (high repair costs!)
 - As the liquid grease cools, it solidifies and becomes a hardened mass
 - Attracts pest/rodents

- Collect oil and scraped cold grease in grease container.

Disposal:

- Preferred: at the Recycling Centers, or
- In the container at your trash location (light green container), if available.
- In your trash can.

Facts:

- Garrison spends a considerable amount of money for repairing blocked pipes every year
- Benefit:
- Reimbursement for Grease/oil € 150 per ton

No other foreign material will be accepted!
