# I WANT YOU TO KNOW ABOUT G-EYES

## Online Optical Prescription Replacement System

### ***G-Eyes provides the Sight to Fight!***

#### **What is it?**

» G-Eyes is a unique system that allows Soldiers, Sailors, Airmen and Marines to reorder prescription glasses, gas mask inserts and Military Combat Eye Protection (MCEP) prescription lens carriers online. **You do not need to go to a clinic.**

» Go to <https://srtswb.amedd.army.mil/WebForms/GEyes/Forms/GEyesHomePage.aspx> and follow the instructions.

#### **What's required?**

» A previous eyewear order through a military eye clinic is required to successfully use G-Eyes.

#### **» How does it work?**

- » G-Eyes searches the optical order database for your last optical order.
- » If a prior order is found, G-Eyes allows you to reorder and automatically sends the request to the optical lab.
- » The lab fabricates the glasses or inserts and sends them to you at the address you enter.

#### **What you need to know**

- » You can order two items per visit to G-Eyes. You may return and order additional glasses or inserts as needed.
- » Some reorders will have frame substitutions. It is suggested that Frame of choice reorders not be placed, as substitutions are likely, but will still count against the Frame of Choice limit.
- » Reorders for inserts will be duplicated. If you need a different insert you must specify the type of insert you need in the comment box.
- » **Please do not order glasses or inserts unnecessarily.**
- » **This is temporarily available to all Active Duty Service Members to support Social Distancing.**

***Preserve the Sight to Fight!***
