

APPENDIX B:
Environmental Competency Training Requirements by Position

4.4.2 Competency Training Requirements				4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
12th CAB	12th CAB	Unit Assigned EO	Air Emissions	SOP VOC limits for paint etc.; SOP for Vehicle Usage		ODS equipment; burn barrels; fuel dispensing; spray painting;	Modul #02-01, #02-02, #02-03
12th CAB	12th CAB	Unit Assigned EO	Asbestos Brake and Clutch Repair		Brake and Clutch Repair and Disposal	Video training	Modul #15-02 + Video 15-02
12th CAB	12th CAB	Unit Assigned EO	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill
12th CAB	12th CAB	Unit Assigned EO	C9.3.6 POL Handling training		Managing Hazardous Materials (i.e. POL)	as a minimum, personnel handling POL shall be trained annually in operation and maintenance of equipment, discharge procedure protocols; general facility operations; spill plan; in addition to HM training (chapt 5)	Modul #09-01 + Yearly Spill Response Drill
12th CAB	12th CAB	Unit Assigned EO	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, shop rags, dry sweep) ; Managing a HWAP	Personnel assigned HWAP duty must complete HW training to perform assigned duties. As a minimum pertinent waste handling and emergency response together with generic HW training requirements. annual verbal instruction: safety measures; measures at operating malfunctions; decontamination; emergency response; spill containment; waste disposal; MSDS location; HM inventory; labeling; instruction must be signed and kept for 2 years; personnel and their supervisors who are assigned HW duties must complete appropriate training and complete annual refresher	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-02, #05-03, #06-01, #09-01 + roles & responsibilities instructions
12th CAB	12th CAB	Unit Assigned EO	Noise Procedural Awareness		Noise Generation and Noise Complaint Management	quite hours; complaints from neighborhood;	Modul #10-01
412th	Motorpool	Unit Assigned EO	UST Inspections	SOP Maintenance and Decommissioning of AST/USTs			Modul #19-01

APPENDIX B:

Environmental Competency Training Requirements by Position

4.4.2 Competency Training Requirements				4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
AAFES	Car Care	Care Care Employee	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, shop rags, dry sweep) ; Managing a HWAP	Personnel assigned HWAP duty must complete HW training to perform assigned duties. As a minimum pertinent waste handling and emergency response together with generic HW training requirements. annual verbal instruction: safety measures; measures at operating malfunctions; decontamination; emergency response; spill containment; waste disposal; MSDS location; HM inventory; labeling; instruction must be signed and kept for 2 years; personnel and their supervisors who are assigned HW duties must complete appropriate training and complete annual refresher	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-01, #06-01, #09-01 + roles & responsibilities instructions
AAFES	Filling Stations	Filling Station Employee	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill
AAFES	Filling Stations	Filling Station Employee	C9.3.10.8.4.4 POL Separator Inspection		Conducting OWS Inspections	Eigenueberwachung!	Modul #09-02
AAFES	Filling Stations	Filling Station Employee	C9.3.6 POL Handling training		Managing Hazardous Materials (i.e. POL)	as a minimum, personnel handling POL shall be trained annually in operation and maintenance of equipment, discharge procedure protocols; general facility operations; spill plan; in addition to HM training (chapt 5)	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-02, #05-03, #06-01, #09-01 + roles & responsibilities instructions

APPENDIX B:
Environmental Competency Training Requirements by Position

4.4.2 Competency Training Requirements				4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
AAFES	Filling Stations	Filling Station Employee	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, shop rags, dry sweep) ; Managing a HWAP	Personnel assigned HWAP duty must complete HW training to perform assigned duties. As a minimum pertinent waste handling and emergency response together with generic HW training requirements. annual verbal instruction: safety measures; measures at operating malfunctions; decontamination; emergency response; spill containment; waste disposal; MSDS location; HM inventory; labeling; instruction must be signed and kept for 2 years; personnel and their supervisors who are assigned HW duties must complete appropriate training and complete annual refresher	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-02, #05-03, #06-01, #09-01 + roles & responsibilities instructions
AAFES	Filling Stations	Filling Station Employee	UST Inspections		Conducting UST Inspections		Modul #19-01
Airfield Management	Aviation Operations	Air Traffic Control	Noise Procedural Awareness		Noise Complaint Management		Modul #10-01
Airfield Management	Aviation Operations	Base Operations	Energy Conservation		Revised Utility, Energy, HVAC specific to Operations	Flight simulator	Modul #01-07
Airfield Management	Aviation Operations	Base Operations	Noise Procedural Awareness		Noise Generation and Noise Complaint Management		Modul #10-01
Airfield Management	Fuel Farm	Fuel Worker	Air Emissions		Managing Hazardous Materials (i.e. POL)	fuel dispensing	Modul #01-06
Airfield Management	Fuel Farm	Fuel Worker	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill
Airfield Management	Fuel Farm	Fuel Worker	C9.3.10.8.4.4 POL Separator Inspection		Conducting OWS Inspections	Eigenueberwachung!	Modul #09-02
Airfield Management	Fuel Farm	Fuel Worker	C9.3.6 POL Handling training		Managing Hazardous Materials (i.e. POL)	as a minimum, personnel handling POL shall be trained annually in operation and maintenance of equipment, discharge procedure protocols; general facility operations; spill plan; in addition to HM training (chapt 5)	Modul #05-01, #09-01
Airfield Management	Fuel Farm	Fuel Worker	HAZ 11- Vilsck or equivalent (ADR)				
Airfield Management	Fuel Farm	Fuel Worker	UST Inspections		Conducting UST Inspections		Modul #19-01

DPW	O & M	POL Sep Manager	C9.3.10.8.4.4 POL Separator Inspection		Conducting OWS Inspections	Eigenueberwachung!	Modul #09-02
DPW	O & M	Refrigerant technician/Contract	Refrigerant Recapture ODS/ODC		Refrigerant Recapture		Modul #02-03
DPW	O & M	Sewage Shop and B&G Road Repair	Storm Water Pollution Prevention Training	SOP Storm Water Poll Prev Plan			Modul #04-01, #04-02, #04-03
DPW	O & M	Sewer Shop	UST Inspections		Conducting UST Inspections		Modul #19-01
DPW	O & M	UST Manager	UST Inspections		Conducting UST Inspections		Modul #19-01
DPW	O & M	Water Distribution Technician Chlorination and Fluoridation Station Operator	HM/ HW general training shop oriented		Managing Hazardous Materials (i.e. Chlorine)	basic training for limited HM/HW	Modul #05-01
DPW	BOI	Self Help Issue Point employee	HM/ HW general training shop oriented	SOP HW management	Managing Hazardous Materials (i.e. POL, cleaners, paints, pesticides, volatiles)	basic training for limited HM/HW	Modul #05-01
DPW	O & M	Plumber Shop	HM/ HW general training shop oriented	SOP HW management	Managing Hazardous Materials (i.e.CGCs)	basic training for limited HM/HW	Modul #05-01
Garrison	All	Appointed to sign Hazardous Waste Manifest	Dangerous Goods Advisor				Training must be provided by Dangerous Goods Advisor or external Agency
Garrison	All	All	Electrical Waste	SOP HW management		included in general SORT training	Modul #07-01
Garrison	All	All	EMS Awareness				Modul #01-01

APPENDIX B:

Environmental Competency Training Requirements by Position

	4.4.2 Competency Training Requirements			4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
Garrison	All	All	Energy Conservation	Utility Energy and HVAC			Modul #01-07
Garrison	All	All	Fuel conservation	Vehicle Air Emissions, Conservation of Fuel		gen. fuel conservation training	Modul #01-06
Garrison	All	All	Green Procurement		Green Procurement	general	Modul #01-05
Garrison	All	All	SORT	Recycling		gen. SORT Training	Modul #07-01
Garrison	All	All	Water Conservation	Utility Energy and HVAC			Modul #01-07
Health Clinic	Health Clinic	Health Clinic Personnel	C8.3 Medical Waste Management	Medical Waste Management	Managing Medical Waste (i.e. needle disposal, blood waste, contingency plan for waste)	MEDCOM internal training	Modul #08-01
IMCOM E	Fire Fighting Training Facility	Fire Fighting Trainer	C18.3.5 Spill Plan	Spill Prevention		Fire department internal training	
IMCOM E	Fire Fighting Training Facility	Fire Fighting Trainer	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, cleaners, fire suppressants)	Fire department internal training	
LFOA	POV Inspection Point	Automotive Mechanics	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, cleaners, fire suppressants)	Personnel assigned HWAP duty must complete HW training to perform assigned duties. As a minimum pertinent waste handling and emergency response together with generic HW training requirements. annual verbal instruction: safety measures; measures at operating malfunctions; decontamination; emergency response; spill containment; waste disposal; MSDS location; HM inventory; labeling; instruction must be signed and kept for 2 years; personnel and their supervisors who are assigned HW duties must complete appropriate training and complete annual refresher	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-02, #05-03, #06-01, #09-01 + roles & responsibilities instructions
TASM-O	Maintenance Facilities	Assigned EO	Air Emissions			ODS equipment; burn barrels; fuel dispensing; spray painting;	Modul #02-01, #02-02, #02-03
TASM-O	Maintenance Facilities	Assigned EO	Asbestos Brake and Clutch Repair		Brake and Clutch Repair and Disposal	Video training	Modul #15-02 + Video 15-02

APPENDIX B:
Environmental Competency Training Requirements by Position

	4.4.2 Competency Training Requirements			4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
TASM-O	Maintenance Facilities	Assigned EO	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill
TASM-O	Maintenance Facilities	Assigned EO	C9.3.6 POL Handling training		Managing Hazardous Materials (i.e. POL)	as a minimum, personnel handling POL shall be trained annually in operation and maintenance of equipment, discharge procedure protocols; general facility operations; spill plan; in addition to HM training (chapt 5)	Modul #09-01 + Yearly Spill Response Drill
TASM-O	Maintenance Facilities	Assigned EO	HAZCOM Training including C5.3.10, C5.3.10.1, C6.3.2.5, C63.9	SOP HW management	Managing Hazardous Materials (i.e. POL, shop rags, dry sweep) ; Managing a HWAP	Personnel assigned HWAP duty must complete HW training to perform assigned duties. As a minimum pertinent waste handling and emergency response together with generic HW training requirements. annual verbal instruction: safety measures; measures at operating malfunctions; decontamination; emergency response; spill containment; waste disposal; MSDS location; HM inventory; labeling; instruction must be signed and kept for 2 years; personnel and their supervisors who are assigned HW duties must complete	40 hrs classroom training or equivalent web page training; 8 hrs classroom training or equivalent web page training (refresher); + Modul #01-02, #05-01 , #05-02, #05-03, #06-01, #09-01 + roles & responsibilities instructions
TASM-O	Maintenance Facilities	Assigned EO	Noise Procedural Awareness		Noise Generation and Noise Complaint Management	quite hours; complaints from neighborhood;	Modul #10-01
TSC	Range Operations	Range Employee	HM/ HW general training shop	SOP HW management	Managing Hazardous Materials (i.e. POL, lead dust)	basic training for limited HM/HW	Modul #05-01
TSC	Range Operations	Range Employee	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill
TSC	Range Operations	Range Employee	INRMP Training	Natural Resources			Modul #13-01
TSC	Range Operations	Range Ops Supervisor	HM/ HW general training shop	SOP HW management	Managing Hazardous Materials (i.e. POL, lead dust)	basic training for limited HM/HW	Modul #05-01
TSC	Range Operations	Range Ops Supervisor	Noise Procedural Awareness		Noise Management		Modul #10-02
TSC	Range Operations	Range Ops Supervisor	C18.3.5 Spill Plan	Spill Prevention		installation will provide training and spill response drills to ensure effectiveness of personnel and equipment	Modul #18-01+ Yearly Spill Response Drill

APPENDIX B:
Environmental Competency Training Requirements by Position

	4.4.2 Competency Training Requirements			4.4.6 Operational Controls of Significant Impacts			
Activity	Site	Type of Employee	Training	SOPs already developed	Recommended SOPs	Remarks	Training Modul
TSC	Range Operations	Range Ops Supervisor	Erosion	Natural Resources			Modul #13-01
TSC	Range Operations	Range Ops Supervisor	INRMP Training	Natural Resources			Modul #13-01
