Mass Casualty
Volunteers are needed to test the ability of the Garrison first responders related to emergency medical triage and treatment. The role players will be moulaged (Simulated Injuries) by Katterbach Fire & Emergency Services personnel. We will be conducting the exercise in both Storck and on Urlas Kaserne. Host nation medical support is also participating to validate our ability to work as a team to protect our garrison during any type of incident.

Emergency Family Assistance Center (EFAC)
Volunteer families (all configurations) are needed to test the ability of the Garrison Emergency Family Assistance Center (EFAC). Role player families will be processed through the EFAC in order to test our ability to provide for the needs of garrison families who have lost everything because of a disaster or emergency situation. Pets are also welcome.

The “Bismarck” Theater is formally recognized as the “Sadowski Theater”

In honor of SGT Joseph Sadowski

World War II Congressional Medal of Honor Recipient
SGT Joseph Sadowski

Served as a tank commander in the United States Army in Company A, 37\textsuperscript{th} Tank Battalion, 4\textsuperscript{th} Armored Division. He was killed in action for his gallantry acts during the battle at Valhey, France.

For conspicuous gallantry and intrepidity at the risk of his life above and beyond the call of duty at Valhey, France. On the afternoon of 14 September 1944, SGT Sadowski as a tank commander was advancing with the leading elements of Combat Command A, 4\textsuperscript{th} Armored Division, through an intensely severe barrage of enemy fire from the streets and buildings of the town of Valhey. As SGT Sadowski's tank advanced through the hail of fire, it was struck by a shell from an 88mm gun fired at a range of 20 yards. The tank was disabled and burst into flames. The suddenness of the enemy attack caused confusion and hesitation among the crews of the remaining tanks of our forces. SGT Sadowski immediately ordered his crew to dismount and take cover in the adjoining buildings. After his crew had dismounted, SGT Sadowski discovered that one member of the crew, the bow gunner, had been unable to leave the tank. Although the tank was being subjected to a withering hail of enemy small-arms, bazooka, grenade, and mortar fire from the streets and from the windows of adjacent buildings, SGT Sadowski unhesitatingly returned to his tank and endeavored to pry up the bow gunner's hatch. While engaged in this attempt to rescue his comrade from the burning tank, he was cut down by a stream of machinegun fire which resulted in his death. The gallant and noble sacrifice of his life in the aid of his comrade, undertaken in the face of almost certain death, so inspired the remainder of the tank crews that they pressed forward with great ferocity and completely destroyed the enemy forces in this town without further loss to themselves. The heroism and selfless devotion to duty displayed by SGT Sadowski, which resulted in his death, inspired the remainder of his force to press forward to victory and reflect the highest tradition of the armed forces.

Priority 1, Emergency (response within 2 hours)

Emergency work takes priority over all work and requires immediate action to cover the emergency. Usually, work will be classified as an emergency when it consists of correcting failures/problems which constitute an immediate danger to life, health, mission, security or property. Normal response to emergency work is within 2 hours. Once the emergency is mitigated, another Demand Maintenance Order that falls under urgent or routine work may be needed to finalize repair.

Priority 2, Urgent (response within 7 days)

Urgent work is required to correct a condition, which could become an emergency, could seriously affect morale or has command emphasis. As a general rule, the DPW will make every effort to accomplish all urgent work within 7 working days of receipt of the request.

Priority 3, Routine (response within 30 days)

Routine work does not meet the category of emergency or urgent. This category covers required work which, if not accomplished, would only continue to be an inconvenient or unsightly condition. Work in this category will normally be accomplished on a first-come first-served basis. Every effort will be made to respond to and complete routine work within 30 days.
**Directorate of Public Works**

**Emergency/Urgent Examples**

**IMCOM definition of Life/Health/Safety (LHS):** *Any emergency or urgent condition that, if not corrected, may cause harm or injury to a person*
