WHY ACE-SI TRAINING IS IMPORTANT

ACE-SI is the Army's only suicide intervention training program and teaches participants the warning signs of mental health challenges as well as how to appropriately intervene with individuals who exhibit them. The program shows service members at all levels how to promote help-seeking behavior and intervention, with the goal of ensuring the wellness, health and morale of everyone in the Army community. ACE-SI supports the Army's People First initiative by building cohesive and resilient teams through strategic suicide prevention and response planning.
