## **CPR for Your Pets: How You Can Make A Difference**

Just like humans, our pets can suffer from cardiac arrest. In these situations, life-saving interventions are immediately necessary as you will not have time to get your pet to a veterinarian. You can perform CPR on your pet in an attempt to resuscitate them. With access to veterinary care limited based upon your duty station, having this knowledge can potentially make a difference and life-saving action for your pet.

- Instructor: CPT Samuel M. Tucker DVM, Section OIC, Vilseck Veterinary Treatment Facility, Licensed Doctor of Veterinary Medicine DVM, R.E.C.O.V.E.R. (animal CPR) certified
- Location: American Red Cross Vilseck, Building 162
- Date: Tuesday, March 11 from 17:00-18:00
- Only dog owners are permitted to attend; unfortunately, dogs must stay at home.
- Please note: This class is informational only and does not result in a certification
