Dear American Resident of Amberg-Sulzbach County,

It is everyone's responsibility to minimize the pollution of our environment. We can do this by avoiding, reducing, separating and recycling of waste.

This pamphlet describes the recycling procedures off post within the German communities of Amberg-Sulzbach County.

It covers the following areas:

- ❖ **Why Recycle?**
- ❖ **Reducing Waste**
- ❖ **What and How to Separate**
- ❖ **Where to Dispose**

Sources of information:

Recycling guides and pickup schedules are available at the Housing Office, Grafenwoehr, bldg. # 244 and on Rose Barracks at the DPW Sort Office (bldg. # 140) and the DPW Self Help Store (bldg. # 103).

Sort information are also posted on the Garrison's public webpage <https://home.army.mil/bavaria/index.php/trash>

It is against German law to bring trash on post.

The only exceptions are household hazardous waste and, if in an urgent need and no other disposal place is available, then bulky items, electric and electronic items including appliances and entertainment equipment can be taken to the Recycle Center on post.

For further information, questions, concerns, suggestions or comments please contact the Rose Barracks SORT-Coordinator at DPW, O&M Division, Utilities Branch Vilseck, DSN 599-4032 or Civ. 09641-70-599-4032.

TELL US WHAT YOU THINK – GOOD OR BAD!

LET US KNOW HOW WE CAN IMPROVE!

Why Recycle?

➤ **Recycling saves our environment.**

Recycling saves energy in making new items, saves trees, saves landfill space, reduces our oil demand and reduces pollution.

- ✓ A 3-foot stack of recycled paper saves one tree. Every ton of recycled paper saves 17 trees.
- ✓ Producing paper from recycled paper uses about 65 % less energy and 61 % less water than making paper from trees.
- ✓ One recycled bottle saves enough energy to run a 100-watt light bulb for four hours.
- ✓ Making aluminum products from recycled aluminum creates 95 % less pollution and uses 90 % less energy than making the same product from raw material.

➤ **Recycling saves community dollars.**

The government pays the waste disposal fees for residents in Leased Housing. In private rental quarters it is either included in the monthly rent or has to be paid by the resident from housing allowances.

Refuse goes to expensive incineration. Therefore the German communities usually calculate the waste disposal fees by the capacity of the refuse containers.

Disposal of recyclable material placed properly in appropriate recycling containers is generally free.

More or larger refuse containers would mean higher cost for us.

Let us save that money! Everybody can contribute!

➤ **Recycling is mandatory by law in Germany.**

Waste disposal falls under the jurisdiction of the German communities. All wastes from private households must be left to the public waste disposal system. You are subject to German recycling laws and rules just like your German neighbors.

➤ **Recycling is mandatory for everyone IAW Garrison Trash Separation Policy and Final Governing Standards for Germany (FGS-G).**

Reducing Waste

- The best thing to do for our environment is to avoid trash.
Where this is not possible, try to reduce it.

- ***Here are some hints:***

- ✓ plan your shopping
- ✓ avoid products with excessive packing
- ✓ buy unpacked goods
- ✓ buy fresh fruits and vegetables instead of deep frozen or canned goods - they have more vitamins too
- ✓ individually wrapped servings do not make good ecological sense
 - they also cost more
- ✓ avoid laminated material (like plastic coated cartons or paper)
 - it is expensive to recycle
- ✓ buy your beverages in reusable bottles (deposit)
 - they are being reused up to 60 times
- ✓ look for natural products - they are a lot easier to recycle
- ✓ use a shopping basket or cloth bags instead of plastic bags

- ***Give away instead of throw away.***

Give no longer needed stuff that is still useable to others to the Thrift Shop or to charity. For example, good used clothing including shoes to the Red Cross.

- ***Closing the loop.***

Look for items in packaging made from recycled materials.
Buy products fully or partially made from recycled materials.
Set the trend to make recycling succeed.

General Guidance:

➤ **Do not bring your off-post trash on post.**

It is against German law to dispose of trash outside the county or city you live in and it violates command policies.

Exception: Household type hazardous waste.

(If in an urgent need and no other disposal place is available, then bulky items, electric and electronic items including appliances and entertainment equipment can be taken to the Recycle Center on post.)

➤ **Keep the material in recycling containers pure.**

Put only the appropriate material in recycling containers. The county's contractor has order to deny service until deficiencies are corrected if a container is "contaminated" with refuse or other (recyclable) material that does not belong in there.

➤ **No recyclable materials in refuse containers.**

The county's garbage men may leave your containers un-serviced.

➤ **No hazardous waste, electronic waste or bulky items in recycling or refuse containers.**

Household type hazardous waste must be brought to the DPW Self Help Store. Electronic waste and bulky items should be brought to the local County Recycling Yard ("Wertstoffhof").

➤ **Keep container lids closed.**

It sure looks nicer, keeps insects away and prevents animals from sifting through your trash and littering the area.

➤ **Do not put anything on the ground.**

Material outside of containers is not picked up, no matter if it is in bags or loose. By German waste laws trash on the ground could be considered "illegal disposal", which may result in a fine.

➤ **Watch pickup days.**

The county collects refuse and paper from the curbside on a routine schedule. Pickup schedules will be provided to you. Put your containers at the curbside before 06:00 of pickup days. Please use this service always, even if your container is only half full or less. This will help to avoid eventual excess and overflow.

Containers & Locations:

- Containers for **refuse** (black or gray) and **paper/cardboard** (green or black with label “Altpapier”) are either assigned to individual homes (most leased housing units and private rental) or centrally placed for a stairwell or building.
- Igloo type containers for **metal cans, glass** and often containers for donations of **used textiles** are available at various recycling points in your neighborhood. They are usually within “walking distance” from your home. Details on use and separation are described on page 10. A list of locations within the county can be found on the SORT webpage <https://home.army.mil/bavaria/index.php/trash>

Please do not use the recycling points after 19:00 or on Sundays / German Holidays.

- Plastics, bulky items, furniture, “green waste”, electric and electronic waste including fluorescent and energy saving lamps, as well as certain other recyclable materials including scrap metal have to be brought to your German community’s central recycling yard. This facility is called “Wertstoffhof”. There you will also find containers for cardboard, glass, metal cans and used textiles as well as a container for “construction debris”, in which you can dump bricks, stones, stoneware tiles and ceramics, etc. Detailed information is on pages 11 - 12. A list of locations and opening hours is on page 17.
- For household hazardous wastes please use the DPW Self Help Store on Rose Barracks Vilseck, bldg. # 103 (see page 15). Dry cell batteries can be dropped off at no cost at any store that sells them.
- Automobile hazardous wastes including tires should primarily be returned to garages and shops that sell those items. They can also be disposed of at the MWR Skills Centers (see page 15). Tires are also accepted at the Recycle Center on post.

What goes where?

A. Curbside Pickups:

■ Refuse (“Restmüll”) -> black container

It includes sweepings, full vacuum cleaner bags, cigarette butts, ash, soot, used napkins and paper towels, dirty paper, used wall paper, soiled plastic wrapping, rubber, diapers, food waste, window and mirror glass, china, porcelain, stoneware, crystal, pet litter, etc.

Please no recyclable materials like paper, cartons, plastic bottles, glass or metals.

Please no bulky items, electronic or hazardous materials or wastes.

Please do not put in hot charcoal or ash.

The county picks up refuse routinely every other week.

If you should have more refuse than fits into the bin, you have to buy special “Restmüllsäcke” (refuse bags) from the County. The costs for 1x 60L refuse bag is 5.50 €. Only garbage packed into the refuse bin or in the county’s special refuse bags will be picked up. (see page 22)

■ Recyclable Paper & Cardboard (“Altpapier”) -> green container

Must be clean! It includes newspapers, catalogues, writing paper, books, notebooks, shopping bags, envelopes, clean napkins and paper towels, clean wrapping paper, cardboard and cartons like cereal boxes, etc.

You don’t have to not remove staples, plastic address windows on envelopes and cardboard hard covers from books.

Please cut / fold boxes to save space.

Remove all styrofoam and plastic filling material and wrapping.

Please do not put in dirty paper of any kind, carbon paper, diapers, wallpaper or wax or plastic coated paper products.

Please no milk- or other beverage cartons (Plastic).

Please do not put in with plastic bags.

The county collects paper every fourth week on routine schedule.

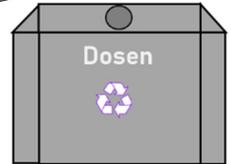

Take excess cardboard/cartons and large boxes to your local community’s recycling yard (“Wertstoffhof”, see pages 11 – 12 and 17).

B. Recycling Points in your Neighborhood:

■ General:

Please do not use the recycling points after 19:00 or on Sundays and German holidays.

■ Metal Cans -> container labeled “Dosen”

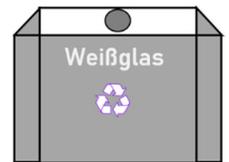

Empty metal cans of all kind including aluminum, like soda cans, food cans, completely empty spray cans from deodorant, hairspray, shaving foam, metal lids from jars and bottles, small metal items like clothing hangers, etc. You do not have to remove labels.

Please do not put in with plastic or paper bags.

■ Glass -> containers labeled “Weissglas”, “Braunglas” or “Grünglas”

Only empty bottles and jars. Please separate by colors (clear, brown and green). Look for the **labeling** on containers. **“Weissglas”** = clear, **“Braunglas”** = brown and **“Grünglas”** = green. Clear glass and brown glass must be kept absolutely pure. **Other colors** can be put in the container for green glass. Please remove lids. You do not have to remove labels.

Please do not put in window glass, windshields, mirrors, china, stoneware or crystal (=> put in refuse). Also, no light bulbs (fluorescent light bulbs and energy efficient lamps are hazardous waste because of their heavy metal contents, regular lamps are refuse).

Please do not put in with bags.

■ Used clothing -> containers labeled “Altkleider”

The **Red Cross** and other charity organizations collect used clothing and other textiles, including still good shoes. Please put items in closed (tied) bags.

Tie matching pairs of shoes together.

No stuffed “animals”, toys, etc.

C. County Recycling Yards (“Wertstoffhof”):

■ For bulky items, “green waste”, scrap metal electric and electronic waste and other recyclables

- **Communities, Locations and Opening Hours:**
see list on page 17.
- **Operating personnel** is there to answer questions if you are not sure what to put where.
- **All material delivered should be empty and clean.**

■ **Plastics must be separated as follows:**

(The words in *italics* are the German names that you may find on the signs at the “Wertstoffhof” – in Vilseck the signs are also in English).

- *Kunststoffbecher* - **Plastic Cups** (yogurt, pudding, ice cream, etc.)
- *Kunststoffflaschen* - **Plastic Bottles** (beverages, cleaners, etc.)
- *Plastikfolien* - **Plastic Foil** (shopping bags, wrapping foil, etc.)
- *Kunststoffeimer und –kanister* - **Plastic Buckets and Canisters**
- *Mischkunststoffe* - **Mixed Plastics** (chips’ bags, noodles’ bags, foam trays, candy bar wrappers, fruit nets, etc.)
- *Styroporformteile* - **Styrofoam Parts** (clean, white material only)
- *Styroporchips* - **Styrofoam Chips** (clean packing material chips)
- *Getränkeverbunde* - **Beverage Cartons** (of composite material, i.e. laminates of carton, plastic, aluminum) **Also: Waxed Milk Cartons**
- *Papierverbunde* - **Paper Laminates** (mixed material laminates of carton, paper, wax, aluminum, tin – e.g. pizza boxes, chips’ cans, etc.)

■ **Other Recyclables:**

- *Aluminium* - **Aluminum** (pure aluminum foil, trays, lids, etc.)
 - *Kork* - **Cork** (bottle corks, clean cork tiles – no plastic “corks”)
 - *Kartonagen* - **Cardboard** (boxes and cartons - please fold)

 - *Grün- und Gartenabfälle* - **“Green Waste”** (grass clippings, bush trimmings, leaves, tree-branches, twigs, plants, and –soil, etc.)

 - *Bauschutt* - **Construction & Demolition Waste** (concrete, mortar, stones, bricks, ceramic tiles, bowls, pottery, window glass, etc.)

 - *Altmetall* - **Scrap Metal** (nails, screws, nuts, bolts, pots, pans, buckets, large cans, sheet metal, pipes, curtain rods, bicycles, non-electric sports equipment, etc.).

 - Sperrmüll – **Bulky Waste (incinerable** – scrap wood, wooden furniture upholstered furniture, plastic furniture, carpets, rugs, etc.)
Please report to the attendants before dumping and ask if your stuff is accepted and how to separate.
-
- ## ■ **Electronic Waste - 5 categories - please ask the attendants for the correct container** - (household appliances, refrigerators & freezers, information-, communication- and entertainment equipment, electric powered sports equipment, small electric items, light tubes – e.g. dish washers, laundry machines, dryers, microwaves, compact fluorescent lamps (CFL) and fluorescent lamps, small items like telephones, razors, toys, etc. – basically anything that runs on electrical power). **Batteries must be removed.**

At every **“Wertstoffhof”**, there are also containers for **glass, metal cans** and donation of **used clothing**

D. Rose Barracks Recycle Center:

■ For Plastics, bulky items, “green waste”, scrap metal, electric and electronic waste and other recyclables

- **Purpose:** Central collection point for bulky waste and excess of recyclable material and refuse from private households on post.
- **Location:** On the road to the Self Help Store and DPW, on the right, just before building # 102 (CIF).
- **Opening hours:**

Tuesdays and Thursdays	11:00 – 16:00
Saturdays	10:00 – 15:00
- **Attendance:** By contractor personnel. The attendant’s primary function is to observe and guide proper sorting and placement of material and to answer questions regarding separation of waste for recycling.

■ Separate containers for:

- **Scrap Metal:** All kind of metal and metal parts, including stoves, tent frames and poles, strollers, ironing boards, rims, tools, bicycles, barbecue grills, metal furniture, gasoline powered lawnmower etc.
*Please no material that is contaminated with oil or grease and no automotive waste.
Please no propane or butane gas containers and no fire extinguishers (->hazardous waste).*
- **Tires:** Separate containers for tires on rims and without rims.
If possible, please dismantle your tires and place the rims in the container for scrap metal.
- **Electronic Waste and Appliances:** TV’s, video and stereo equipment, radios, CD players, computers, printers, microwaves, refrigerators, freezers, fluorescent lamps, washers, dryers, toasters, electro powered lawnmower etc.
Please handle items carefully. Do not throw. Do not break.
- **Scrap Wood:** All kinds of scrap wood and wooden furniture, wood chips, pressed wood, plywood, sawdust, etc.
Please dismantle furniture and remove metal and plastic parts as far as possible.

- **Upholstered Furniture:** Sofas, mattresses, carpets, rugs, large hard plastic items, large products that consist of a mix of materials and cannot be dismantled with reasonable effort, etc.
Please no material that falls under the categories above.
- **Used Clothing and Home Textiles:** Donations to the Red Cross. Please put items in closed (tied) bags. Matching pairs of shoes should be tied together.
- **Batteries:** Lead acid (car) batteries from privately owned vehicles. *Please handle carefully to avoid spills.*
Also separate containers for dry cell batteries.
