AMIM-BAG-SO

MEMORANDUM FOR All Units and Organizations within the USAG Bavaria Footprint

SUBJECT: USAG Bavaria Policy Letter # 16 Ammunition Amnesty Program

1. References:

- a. DA Pam 385-64, Ammunition and Explosives Safety Standards
- b. DA Pam 700-16, The Ammunition Management System
- c. DA Pam 710-2-1, Using Unit Supply System
- d. AE Reg 385-64, Explosives Safety
- e. IMCOM Reg 385-10, Safety Program

2. The USAG Bavaria amnesty program is intended to ensure maximum recovery of ammunition and explosive items outside the normal supply system. It is not intended for units or individuals to circumvent normal turn-in procedures. The USAG Bavaria amnesty program must be widely publicized as a "no questions asked" policy to allow individuals to turn in items without fear of reprisal.

3. Commanders of units that use Ammunition and Explosives (AE) will establish a local amnesty program that supports the main Garrison program. They must monitor this program to ensure it is not used to circumvent accountability. Additionally, commanders will post the location and phone number of the nearest military turn-in point on unit bulletin boards and provide directions to any military or civilian personnel who wish to turn in AE.

4. Collection Points:

- a. The enclosure lists the collection points for all USAG Bavaria installations, which are available 24/7 with one exception as noted in the Enclosure.
- b. You may turn in small arms ammunition (up to and including .50 caliber) at any amnesty box. Do not move any other type of ammunition or explosive (AE), as it is

considered hazardous. Instead, immediately report these items to the Military Police, Safety Office, or QASAS, who will contact the nearest EOD unit. Do not pick up or disturb any suspected explosives.

c. Never leave unsafe items at a collection point; EOD personnel must render them safe or destroy them. Units may not create additional amnesty points, even temporarily, without express permission from the USAG Bavaria Garrison Commander.

5. AE found outside an installation must be reported to local authorities (for example, Host Nation police or military authorities). EOD units will provide assistance only at the request of these authorities.

6. Keeping any AE as a souvenir is a safety hazard and is strictly prohibited.

7. All personnel assigned AE duties (Military, Civilian, Local Nation, and Contractor) will be briefed on the amnesty program at least once every 180 days and prior to operations, exercises, or training events that provide access to or require the use of AE.

8. Amnesty Day: 21st TSC in coordination with USAG Bavaria will schedule an A&E amnesty day annually for collection of abandoned or unauthorized A&E. The amnesty day will be scheduled with the supporting Ammunition Support Activity (ASA) 60 days prior. USAG Bavaria will assist 21st TSC to widely publicize the amnesty days to the community and to all subordinate commanders.

9. POC is the USAG Bavaria Safety Director at DSN 526-2303.
