### Helpful Information

- You can choose two different appointments, a primary and an alternate (unfortunately the system cannot provide live tracking of available appointments).
- Upon completion of the form, you will immediately receive an automated email indicating whether or not your appointment was successfully booked.
- The email subject line reads “Available Time Slots for Vehicle Registration” when desired appointment is not available, and “Vehicle Registration Appointment Confirmation” when the appointment is available and booked for you.
- If your desired appointment date and time are not available, you are presented with five alternate appointments available for you to book – but you do have to book them separately.
- Upon completing the appointment request, please check your email (including your junk folder) for a notification from “USARMY Bavaria ID-Europe Mailbox Vehicle Registration” to establish whether or not your desired appointment is confirmed.
- Customers must show Vehicle Registration clerks proof of their appointment via the confirmation email at the time of the appointment. Failure to do so will result in being turned away.
- Walk-ins are only accepted on Wednesdays.
