Recyclable

Recyclable

If your shredder shreds for security (secret or top secret) reasons (i.e. requires that paper be cross-cut or pulverized), please do not put bags of this material into your recycling containers.

Reminder:

Do not mix colored paper, plastic, or shredded CDs with recyclable shred on Fort Belvoir. Shredded plastic and CDs should be thrown away. Shredded colored (or, "mixed") paper should be placed in the recycling container for mixed paper.

If your organization on Fort Belvoir is going to obtain an industrial shredder or pulverizer that vents to the outside, please contact Kelly Lease at 806-4008

Any other recycling questions? Please contact Vijay Ivatury at 806-0061 or email at vijay.m.ivatury.civ@mail.mil
