PRESS RELEASE: U.S. Army Garrison Black Sea conducts Force Protection Exercise

MK Airbase, Romania – U.S. Army Garrison Black Sea is scheduled to conduct a routine force protection exercise on its installations in Romania and Bulgaria. The exercise will take place between Mar. 17-20, 2025.

During the exercise, the local community may notice increased security measures at installation gates and access control points, which may cause traffic delays, even though garrison leaders are taking all measures to minimize impact on the neighborhood. We appreciate your patience as it is vital that we practice our protection protocols through exercises like this one.

Members of the media with questions about the exercise can call the U.S. Army Garrison Black Sea public affairs office at +40 741 235 504 or +40 724 052 704.
