Attention! Do not process, store, or transmit classified information on non-secure telecommunications systems. Official DoD telecommunications systems - including telephones, facsimile machines, computer networks, and modems - are subject to monitoring for telecommunications security purposes at all times. Use of official DoD telecommunications systems constitutes consent to information systems security monitoring. In accordance with AR 380-53, Information Systems Security Monitor, paragraph 2-5.a.(1), the following statement must be included in the phone directory either on the front cover or prominently within the general information section:

Dialing Plan When Dialing on Post

If you want to call	you would dial ...
a 568 number	568-xxxx
a 569 number	569-xxxx
a 744 number	744-xxxx
a 313 number	99-313-xxxx (for JTFN only)
To...	Dial ...
make a local call	99+local #
make a TOLL FREE call	99+1-800, 1-866, 1-877 etc.
make a DSN call	94+7 digit DSN #
make a FTS2000 call	97+1+ area code+ 7-digit #
call WSMR	678-xxxx
make an int'l call	97011+country code+city code+number

Dialing Information Chart

Pin codes (authorization number) are no longer needed to make a DSN call.

DSN for 741-xxxx is 711

DSN for 742-xxxx is 712

DSN for 744-xxxx is 621

DSN for 313-xxxx is 666

DSN for 568-xxxx is 978

DSN for 569-xxxx is 979

NOTE: "xxxx" represents the last four of the telephone number. All on post calls must be dialed using seven-digit dialing. This will apply to all 568, 569 and 741, 742, 744 numbers. Exception will be JTFN 99-313-xxxx.

1) The access for local off-base calls will change from 9 to 99.

2) The access code to make DSN will change from 8 to 94.

3) The access code to make FTS calls will change from 9 to 97.

4) The access code to make international calls will change from 7011 to 97011.

5) On-base emergency numbers (911) and operator assistance (0) will remain the same.

Customers are advised to review and edit all speed dial lists on their telephones, fax machines and VTC units. Also, customers with call forwarding variable should be aware that edit may be necessary, especially on ISDN sets with call forwarding variable feature buttons.
