

HEROES MAKE AMERICA

AMERICA'S MANUFACTURERS NEED YOU

Manufacturing companies across the country like Samsung, Koch Industries, Allergan, Cooper Standard and Novelis want to fill their open positions with ambitious and skilled talent. As a veteran, you have the qualities these rewarding and well-paying careers require, and with just a short amount of training, you could be the perfect candidate to fill these open positions. The Manufacturing Institute, the education and workforce arm of the National Association of Manufacturers, launched **Heroes MAKE America** to build a pipeline between the military and manufacturing. The program will provide you with the additional industry-specific skills, certifications and connections necessary to establish a fulfilling career in manufacturing.

HEROES MAKE AMERICA PROGRAM

Heroes MAKE America is a 8-week Career Skills Program to prepare veterans and military spouses with the exact in-demand qualifications and industry-specific certifications you need to not only find a manufacturing career, but excel in it. **Heroes MAKE America** is offered in partnership with Fayetteville Technical Community College's Transition Tech program.

Program highlights:

- Certifications include: Certified Production Technician, OSHA 10 and Fork Lift Operation
- Essential manufacturing credentials: safety, quality, maintenance, manufacturing processes and production
- Weekly modern manufacturing tours
- Career readiness instruction – resume writing, interview skills, social media branding
- Placement support – connections and guidance during career search and interviews with manufacturing companies across the U.S.

2019 Class Dates:

April 23–June 14
July 15–September 3
October 7–November 27
