136 Charcoal Road
Cherryville, NC, 28021
(704) 769-8010

Generator Service Engineer

Cherryville, NC 28021
POC: Amanda Whisnant 704-769-8010

Job Description

As a Generator Technician, you will be contributing to the service, repair, and maintenance of commercial, industrial, and residential generators and Automatic Transfer Switches. This includes (but not limited to):

- Service and repair all makes and models of generator sets.
- Perform preventive maintenance on generator sets.
- Troubleshooting generator and Automatic Transfer Switch units.
- Maintaining a neat and orderly shop warehouse.

Requirements:

- A general understanding of electrical systems and engines.
- A general knowledge of hand tools.
- Good morale and exceptional work ethic.
- Willingness to follow orders and learn.
- Previous experience in generator maintenance is preferred.
- The ability to perform moderate to heavy physical labor (lifting, crouching, kneeling, etc.)
- A valid driver's license.

Job Type: Full-time

Steps to apply: Please call Amanda Whisnant at 704-769-8010, and email your resume to amanda.whisnant@pgandc.com.

Closing date: December 31st, 2019
