

VA Fayetteville Coastal Health Care System

VA Fayetteville Coastal Healthcare System is accepting applications for DoD SkillBridge Interns.

THE INTERMEDIATE CARE TECHNICIAN (ICT) SKILLBRIDGE

12-week internship for former military combat medics, medical technicians, and hospital corpsmen to operate in the Emergency Department.

This position serves as an advanced technician for patients who are present for treatment within the VA Healthcare System.

ICTs are advanced unlicensed assistive personnel (UAP) who have graduated from intensive specialized military medical training programs and served as combat medics, medical technicians, and corpsman.

This role provides a higher level of clinical support to both nursing and medicine.

The ICT intern may assist with or perform other related approved technical health care procedures in the Emergency Department.

ELIGIBILITY

- Combat Medic, Medical Technician, Medical Service Technician, or Hospital Corpsmen.
- Service Members of Any Rank
- All Military Branches of Service
- Participate within their Final 180 Days of Military Service
- Receives Approval from Appropriate Command Authority to Participate

BENEFITS

- Gain valuable civilian work experience through specific industry training, apprenticeships, or internships
- Participants in the VA SkillBridge continue to receive their DOD salary and benefits
- Opportunity for Participants to Continue their Service at VA by Caring for Veterans
