

Rigid Tactical is seeking a Special Operations Intelligence Integrator in Reston, VA.
POC: Jen Bollinger, Rigid Tactical Recruiter
Jennifer.Bollinger@rigidtactical.com 270-589-2975

Intelligence Integrators are needed to serve on a unique, multi-discipline team assisting Special Operations Forces (SOF) operational and tactical commanders, their staffs and their subordinate units. Integrators fuse operations and intelligence information in an effective, seamless process to enhance their effectiveness against threat networks that facilitate or employ Improvised Explosive Devices. As the sub-contractor and a Small Disabled Veteran Owned Business, we offer excellent benefits and the ability to care for our employees as respected team members.

Provide direct Targeting support to Task Force in support of SOF

- Provides direct targeting CONUS support to USSOCOM.
- Provides direct OCONUS targeting support to USSOCOM.
- Knowledgeable of the F3EAD Targeting Cycle, Intelligence Cycle, Collection Management Cycle, Targeting Cycle and intelligence analytic techniques including trend and pattern analysis, geospatial analysis, link analysis and network or social network analysis.
- Experienced with data processing systems.
- Skilled at the use of i2 Analyst Notebook ArcGIS, and Google Earth Proficient at using basic computer applications and intelligence related automation to support analytical efforts and product development. Possess strong research and writing skills; and be capable of effectively operating alone in support of tactical, operational, and strategic special operations forces conducting Counter-Terrorism targeting.

Required:

Current Top Secret/Specialized Compartmented Information Security Clearance.

You must possess the ability to effectively communicate both orally and in writing.

You will be able to provide daily feedback to the team lead on product development.

Be deployable to the required theater of operations, usually conducting periodic travel within CONUS and four-to-six-month deployments to OCONUS locations.

Willing to work rotating shifts if needed - that may include nights and weekends.
