

**FORT BUCHANAN GARRISON COMMANDER  
COLONEL JOSEPH B. CORCORAN III  
MESSAGE TO THE COMMUNITY**

**Team Fort Buchanan:**

**The Installation Leadership Team is actively monitoring the COVID-19 pandemic and will continue to make decisions to ensure the overall health and safety of the Fort Buchanan Community. While we strive to be consistent in our response, this situation is fluid, unprecedented, and ongoing and there will likely be additional modifications to installation services and facility hours. We will continue to keep our Social Media and installation website up to date with the most current information. These are the only authorized sites for official Fort Buchanan information.**

**Please know that I value the entire Fort Buchanan community to include each and every Retiree, Veteran, family member, and current Service Member. Over the past few days, there have been a number of changes and difficult decisions that have directly impacted our extended Fort Buchanan Community but every decision made is to ensure the safety of all personnel who work, live, or train on Fort Buchanan.**

**Please continue to follow the prevention advice and recommendations being shared through CDC and local authorities. If you believe you have symptoms associated with COVID-19 and need medical assistance, please contact your medical provider. If Rodriguez Army Health Clinic is your primary clinic, please call them at 787-707-2555/2558 before entering the installation or clinic.**

**This is not a time to panic, but to remain calm and vigilant in our prevention efforts.**

**Thank you for your patience and understanding in these challenging times.**

**COL Joe Corcoran  
Fort Buchanan Garrison Commander**
