# Comments submitted 01 September

- ✓ **Comment 1:** Gate 1 entry-people try to merge to left lane immediately after turning, blocking the intersection every day! Putting small barriers between the two lanes would encourage people to keep moving out of the intersection and then they can merge closer to the gate.
- ✓ **DES Response:** Placing barriers in the intersection or to separate lanes would be more harmful and would cause more of a traffic problem. DES/Law Enforcement section has spoken with Clarksville PD to monitor the intersection at gate one to help detour these undisciplined drivers. DES continues to ask all drivers to drive defensively during hours of high traffic.

# Comments submitted 01 September

- ✓ **Comment 2:** I am seeing a lot of electric cars on post. Can we get a charging station on post? Maybe in PX parking in the back where it is usually empty.
- ✓ **Exchange Response:** The installing of EV recharging points in Exchange parking lots is part of an ongoing discussion between AAFES and IMCOM. Unfortunately, we have no additional information, except that it's currently being discussed

## Comments submitted 01 September

- ✓ **Comment 3:** Would like slides from every presenter, calendar should go 90 days out, spouses' club, BOSS and Chapel should present every time.
- ✓ **ACS Response:** After the “Special Briefs” have concluded, time is allowed on the agenda when the floor is open to any of our on-post or outside agencies to stand and share any of their upcoming events with the group. As for a 90 Calendar – for PAIO it may prove challenging as Garrison event dates, times & locations are subject to constant change and/or cancellation.
