Fort Campbell responds to security threat

FORT CAMPBELL, Ky. (Oct. 10, 2025) – Early this morning, Fort Campbell Emergency Services responded to a security threat at the installation's Gate 10. Fort Campbell Emergency Services responded immediately, safely evacuated affected Soldiers and Family members, and cordoned the area. The situation is under control, but Gate 10 remains closed at this time to allow Law Enforcement and Emergency Services to finish searching and clearing the area.

Please avoid Gate 10 for the time being. Fort Campbell has temporarily closed Gate 10.

Commercial trucks should use Mabry Gate until Gate 10 reopens and POVs should use an alternate gate.

Everyone should be prepared to add extra time to their commute to and from Fort Campbell. For the latest gate hours use the My Army Post App or visit the Fort Campbell website at <https://home.army.mil/campbell/index.php/gate-hours>.
