FUEL TURN IN (F-24/JP8 LARGE QUANTITIES)
(Fuel Tankers/HEMTT/PODS/Collapsible Drums)

POSSIBLE AREAS OF CONCERN

F24/JP8 is a DOT-flammable material and should be handled in accordance with appropriate safety guidelines.

CHARACTERIZATION

Recycled F-24/JP8 can reduce waste of fuel and funds while protecting the environment.

HANDLING PROCEDURES

Step 1 For unwanted or contaminated quantities of F-24/JP-8 over 150 gallons bring a copy of a memo signed by the commander to **DPW Environmental Division Hazmat** stating the quantity and that the unit does not need the excess fuel.

Step 2 Coordinate with **DPW Environmental Division Hazmat** for further instructions on when to bring excess fuel to the PPOC.

NOTE: The memo needed to turn fuel in is located in Appendix E

GENERAL INFORMATION

For more information on recycling F-24/JP8, contact **PPOC Services**. See protocol sheet A-41 for small quantities of F-24/JP8.
