ADHESIVES AND SEALANTS

POSSIBLE AREAS OF CONCERN

Adhesives, sealants, caulking, and epoxy parts A & B are made of combinations of chemicals suspended in a solvent that partially evaporate during use. Refer to the SDS for specific hazards.

CHARACTERIZATION

Spent adhesives and sealants, and waste generated from use of these materials such as gloves, stir sticks, and old material removed during replacement may be considered hazardous waste.

HANDLING PROCEDURES

Step 1 Place items in a marked bag/container.

Step 2 Place marked bag/containers and contaminated materials/PPE in Hazardous Materials return locker. If no return locker is available, residue/empty containers **MUST BE** returned to PPOC. Location 5 of the map on the backside of this book.

Adhesives and sealants

GENERAL INFORMATION

Good product is returned to correct location in Hazardous Material storage locker for use later. For additional information contact **PPOC Services**.
