### THE PRINCIPLES OF PATROLLING

1) **PLANNING**: Quickly make a simple plan and effectively communicate it to the lowest level. A great plan that takes forever to complete and is poorly disseminated is not a great plan. Plan and prepare a realistic standard and rehearse everything.

2) **RECONNAISSANCE**: Your responsibility as a leader is to confirm what you think you know, and to learn that which you do not already know.

3) **SECURITY**: Preserve your force as a whole. Every Soldier and rifle counts, either one could be the difference between victory and defeat.

4) **CONTROL**: Clarify the concept of the operation and the commanders intent, coupled with disciplined communications, to bring every Soldier and weapon available to overwhelm the enemy at the decisive point.

5) **COMMON SENSE**: Use all available information and good judgment to make sound, timely decisions.

Leadership Assessment

1. **Troop Leading Procedures** - Squad Leader successfully communicates a tactically/technically sound plan to operationally defeat the enemy.

(POINTS /2)

2. **Communication** - SL-TLs communicate with subordinates in a way that promotes understanding, enabling the subordinates to execute the plan without supervision. Paratroopers use doctrinal terms precisely and share information.

(POINTS /2)

3. **Tactical Problem Solving** - Leaders model sound judgement and engage in thoughtful analysis and assessment. The Squad makes decisions quickly and confidently in absence of all the information.

(POINTS /2)

4. **Adaptability** - Squad maintains focus on mission and objectives despite stress and adversity. Squad quickly recovers from setbacks, learns from adverse situations and grows in resilience.

(POINTS /2)

5. **Command Presence** - Leaders possess a commanding presence that energizes subordinates and display confidence in plan and abilities of themselves and their unit.
