## **Introduction**

In accordance with Stipulation (J.1.a.) of the *Amended Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Amended December 2014), an annual report of all Army projects and activities carried out on the Tennessee portion of Fort Campbell, and reviewed by the Fort Campbell Cultural Resource Management Program (CRMP) must be submitted to the Advisory Council on Historic Preservation (ACHP), Installation Management Command-Atlantic Region (IMCOM-AR), and the Tennessee State Historic Preservation Office. The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP in Montgomery and Stewart Counties, Tennessee.

## **Planning**

### *Integrated Cultural Resource Management Plan*

Fort Campbell CRMP has finalized the Integrated Cultural Resource Management Plan (ICRMP) after input from the TN SHPO in May 2013. The management plan is valid for five (5) years and will be completely updated in 2018. Until that time, the ICRMP will be reviewed yearly. The yearly review of the ICRMP was completed in July 2014. The annual review to the ICRMP included updates to NRHP statuses of identified archaeological sites and a list of project completed by Fort Campbell. The review also included updated contact information for pertinent Fort Campbell personnel, tribal contacts, and preservation office contacts. The annual review was placed on the Fort Campbell Web page at:

<http://www.campbell.army.mil/campbell/directorates/DPW/envdiv/Pages/CulturalResources.aspx>

### *Programmatic Agreements*

Fort Campbell has two programmatic agreements for operations that were amended in December 2014 to extend the agreement until December 31, 2014. *Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (Effective January, 2009) covers undertakings across the installation. *Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (Effective January, 2009) is for development undertakings within the Clarksville Base Historic District. A separate annual report is submitted for undertakings at Clarksville Base Historic District. These programmatic agreements for operations, maintenance and development are now valid through January 2016. The agreement outlines proper procedure and regulation for managing all undertakings within Montgomery and

Stewart Counties, Tennessee. The CRMP is currently working on a new programmatic agreement for base operations. Fort Campbell will be contacting the TN SHPO to provide comments and suggestions regarding the development of the new Programmatic Agreement during this one (1) year extension.

## **Inventory**

### *Overview*

Inventory of resources is a requirement under Section 110 of the National Historic Preservation Act. Under stipulations B.4 and B.6 of the *Operations Programmatic Agreement (OPS PA)*, the CRMP must conduct a comprehensive inventory of archaeological sites and historic buildings. The CRMP maintains an extensive GIS database to keep track of archaeological sites, historic sites, historic buildings and cemeteries across the installation. This database organizes site information in a format that can be queried for various tasks, such as project review and assessment.

### *Historic Buildings*

Historic Buildings are characterized by being at least 50 years old, or older, from the current year. Therefore, as buildings approach the historic year range, they will need to be evaluated for NRHP eligibility to fulfill requirements of Section 110 of the National Historic Preservation Act.

Historic buildings at Fort Campbell include facilities classified as World War II temporary buildings, residences originally constructed as part of the Capehart and Wherry Housing programs (Unaccompanied Personnel Housing) and structures that were used as Cold War weapons and ammunition storage. All of these buildings are more than 50 years old and are considered through a nation-wide Program Comment that allows the demolition and alteration of these remaining building types at Fort Campbell.

### *Architectural Evaluations*

There were no historic architectural evaluations sent to the TN SHPO in 2014. Several architectural evaluations are currently in progress. Fort Campbell will submit reports to the TN SHPO upon completion.

## Archaeological Investigation

### *Overview*

According to the OPS PA, areas that have been heavily disturbed and/or unsafe for survey are excluded from further archaeological survey. These areas include the Cantonment Area and Impact Areas. Some areas that have been previously inventoried for archaeological resources are being resurveyed due to various oversights and other documentation discrepancies of previous work. As funding allows, more Phase I and Phase II archaeological surveys will continue at Fort Campbell.

### *Legacy Investigations*

In November 2013, a final report entitled *Phase I Cultural Resources Investigations of 235 Acres at Old Clarksville Base, Fort Campbell (Pritchard 2005)* was sent to the TN SHPO. The TN SHPO concurred with level of effort of the survey in a letter dated April 7, 2014.

In July 2014, *Archaeological Site Detection Survey of 661 Acres at Fort Campbell, Kentucky-Tennessee (Wilson et al. 2005)* was sent to the TN SHPO. The TN SHPO concurred with site eligibility and level of effort in a letter dated August 13, 2014.

### *Current Investigations*

In 2014, a final report entitled *Phase I Archaeological Survey of 1,261 Acres in Montgomery and Stewart Counties, TN (Pritchard et al. 2013)* was sent to the TN SHPO. The TN SHPO concurred with site eligibility and level of effort in a letter dated August 13, 2014.

A Phase I archaeological survey is currently under contract with Fort Campbell. Phase I surveys are being completed in both Tennessee and Kentucky by the Louis Berger Group and New South Associates. The Phase I fieldwork, by the Louis Berger Group, has been completed and the report is currently in production. Both surveys were to perform initial site and artifact detection for both Historic and Prehistoric archaeological sites. After receiving the draft report for these surveys, the CRMP will be forwarding to the appropriate state SHPO for comments.

Phase II archaeological evaluations are also under contract with Fort Campbell. The Phase II testing will also be performed by New South Associates. After receiving the draft reports for these surveys, the CRMP will be forwarding to the TN SHPO for comments.

Fort Campbell Cultural Resources contract personnel are also undertaking small scale Phase II archaeological surveys. These Phase II surveys will be used to deliver eligibility recommendations to the SHPO on sites that have been recommended as *Potentially Eligible* by previous surveys. Eligibility determinations will be forwarded to the TN SHPO upon completion.

## **Project Review**

### *National Environmental Policy Act (NEPA) Review*

Fort Campbell primarily uses NEPA review as a clearing house for all projects within the installation. A critical part of the NEPA process is reviewing projects for potential effects to historic properties.

### *Record of Environmental Consideration (RECs)*

The Record of Environmental Consideration (REC) is an Army process for internal review of proposed projects in accordance through NEPA. The REC requires multiple disciplines to review projects to determine and comment on potential impacts.

The CRMP reviewed 125 REC documents in Tennessee, between January 2014 and December 2014. Most frequently, the proposed undertaking is reviewed internally, in accordance with the OPS PA. RECs usually have no effect to historic properties or can be modified, through coordination with the CRMP, by the proponent to avoid effects to historic properties.

According to Stipulation 2.a. of the OPS PA, the FTC-CRO staff may inspect small areas not surveyed for archaeological materials to determine the level of disturbance and the likelihood of any significant archaeological sites are remaining. No RECS, in Tennessee, were reviewed in accordance with Stipulation 2.a.

A list of RECs reviewed and finalized by the CRMP is attached. RECs are labeled in fiscal years; therefore, fiscal years 2014-2014 will be listed. All of the REC documents listed in this section had *No Effect to Historic Properties*.

### *Individual Section 106 Consultation*

Under Stipulation C.2 of the OPS PA, when undertakings are not exclusively reviewed by Fort Campbell personnel, individual Section 106 Consultation, per 36 CFR 800, with the TN SHPO must be performed before undertaking can proceed. When a Section 106 Consultation is completed, it is forwarded to the SHPO for concurrence with the Army effect determination.

The CRMP completed nine (9) formal Section 106 consultations with Tennessee. Seven (7) Section 106 consultations for Tennessee were determined to have *No Adverse Effect*. One (1) Section 106 consultation, for Tennessee, was determined to have an *Adverse Effect to Historic Properties*: Abandonment of the Childers House. One (1) Section 106 consultation, for Tennessee, has not yet received a formal effect determination: Inadvertent Damage at Sukchon Drop Zone. The TN SHPO concurred with planned remedial actions in a letter dated December 9, 2014.

A list of individual Section 106 Consultations completed is attached.

### *Formal Correspondence*

The CRMP also developed formal correspondence packages with the TN SHPO regarding activities not covered through REC documents or Section 106 Consultations. These projects include archaeological survey reports and management documents. A list of formal correspondence is attached to this report.

### *Tennessee One Call*

The Tennessee One Call is an automated system to serve as a notification for any underground digging that will occur on the installation, in both Tennessee and Kentucky. This automated system notifies callers of any underground utilities buried within the project area. The CRMP receives automated Tennessee One Calls tickets, via email, referencing geographical locations for review for potential impacts to cultural properties. Most Tennessee One Calls are placed for repair and/or maintenance to utility lines and television satellite installation. The CRMP reviewed 2,860 Tennessee One Calls in 2014, all of which were determined to have *No Effect to Historic Properties*.

According to Stipulation 2.a. of the OPS PA, the FTC-CRO staff may inspect small areas not surveyed for archaeological materials to determine the level of disturbance and the likelihood of any significant archaeological sites are remaining. Three (3) Tennessee One Calls, in Tennessee, were reviewed in accordance with Stipulation 2.a. The results of this fieldwork are located in attachments 1, 2, and 3.

### **Childers House Adverse Effect**

A Section 106 Consultation was conducted with the TN SHPO regarding the vacancy of the Childers house due to the expansion of nearby range safety areas. Fort Campbell determined that the abandonment of the Childers House constitutes an *Adverse Effect to Historic Properties*. In March 2014, the TN SHPO concurred with this determination. Fort Campbell plans to develop a Memorandum of Agreement (MOA) to mitigate the Adverse Effect. Fort Campbell is currently in the public comment phase of developing a list of consulting parties for the MOA. The TN SHPO will be contacted accordingly during this process.

## **Public Outreach**

Between January 2014 and December 2014, the CRMP staff has organized and participated in several programs to promote the awareness and stewardship of cultural resources at Fort Campbell.

In October 2014, a Glenellen Elementary School, in Montgomery County, Tennessee, held a career day for their students. Mr. Ronald Grayson, M.A., RPA, Cultural Resources Program Manager, presented to students regarding careers in archaeology. Additionally, CRMP staff attended Fort Campbell's annual Earth Day in April 2014. The CRMP staff displayed artifacts from the teaching collection and also had mock excavating activities for the public.

## **Conclusion**

With the pending update of the Programmatic Agreement and implementation of the ICRMP, the CRMP can foster consistent and appropriate methods for cultural resource management. The CRMP will be coordinating with the TN SHPO on Programmatic Agreement updates and ongoing archaeological investigation. The Fort Campbell Cultural Resource Management Program hopes for continued improvement and efficiency in the management of cultural properties within the installation boundaries.

## List of Record of Environmental Considerations

Determined as having No Effect to Historic Properties

*January 2014-December 2014*

<b>REC #</b>	<b>Title</b>

**DEPARTMENT OF THE ARMY**  
INSTALLATION MANAGEMENT COMMAND, ATLANTIC REGION  
HEADQUARTERS, UNITED STATES ARMY GARRISON, FT CAMPBELL  
39 NORMANDY BOULEVARD  
FORT CAMPBELL, KENTUCKY 42223-5617

March 30, 2015

Office of the Garrison Commander

Mr. E. Patrick McIntyre, Jr., Executive Director  
Tennessee Historical Commission  
Clover Bottom Mansion  
2941 Lebanon Road  
Nashville, Tennessee 37243-0442

Dear Mr. McIntyre:

In accordance with Stipulation (J.1.a.) of the *Amended Programmatic Agreement Among the United States Army, The State Historic Preservation Officer of Kentucky and the State Historic Preservation Officer of Tennessee regarding the Operation, Maintenance, and Development of The Fort Campbell Army Installation at Fort Campbell, Kentucky* (amended December 2014) an annual report of all Army projects and activities carried out in the Tennessee portion, and reviewed by the Fort Campbell Cultural Resource Management Program (CRMP), must be submitted to the Advisory Council on Historic Preservation, Installation Management Command-Atlantic Region and the Tennessee State Historic Preservation Office. The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP in Montgomery and Stewart Counties, Tennessee for calendar year 2014.

It is the determination of the US Army that this report meets the requirements of Stipulation (J.1.a) of the aforementioned agreement for calendar year 2014. Please accept the enclosed annual report as meeting compliance with Stipulation (J) of the aforementioned agreement.

If you have any further questions, regarding this matter, please contact Mr. Ronald Grayson, Cultural Resources Program Manager at [ronald.i.grayson.civ@mail.mil](mailto:ronald.i.grayson.civ@mail.mil), or telephone 270-412-8174.

Sincerely,

  
David L. Dellinger  
Colonel, U.S. Army  
Commanding
