## TASK: CONDUCT A MOVEMENT TO CONTACT

TASK NUMBER: 071-420-0021 (CONDUCT A MOVEMENT TO CONTACT BY A PLATOON) - AO JUNE 2016

FINAL GRADE:	GO	NO GO		(Circle One)	
	PERFORMANCE MEASU	RES:	GO	NOGO	N/A
1. PL crosses LD at prescr	ibed time in OPORD.				
2. PL assesses METT-TC	and adjusts movement technic	ques as required.			
2. PL assesses METT-TC	and adjusts movement formation	s as required.			
4. PL identifies control m	leasures to use during moveme	ent.			
5. PL ensures contact with	enemy is made with smallest ele	ment possible.			
6. PL ensures that contact	is maintained with the enemy after	er initiated.			
7. PL assesses the situation	on and directs subordinates in ord	er to execute COA.			
8. PL directs platoon to e	execute one of the following:				
Assault					
Bypass					
Fix an enemy	force				
Seize, secure,	or clear an assigned area				
9. PL ensures security is n	naintained throughout / after the c	contact.			
10. PL oversees reconsolio	dation and reorganization after co	ntact.			
11. PL directs specialty tea	ams after the contact.				
12. PL ensures casualties	are treated and evacuated IAW p	rescribed plan.			
13. PL ensures element i	s at 100% accountability prior t	o continuing mission.			

TASKS LISTED IN BOLD ARE CRITICAL TASKS AND MUST BE COMPLETED TO PASS EVALUATION. GO REQUIRES 70% COMPLETION OF GRADED PERFORMANCE MEASURES (10/13).

## TASK: EVACUATE A CASUALTY

TASK NUMBER: 07-PLT-9033 (EVACUATE A CASUALTY) - AO FEBRUARY 2018

FINAL GRADE:	GO	NO GO		(Circle One)	
	PERFORMANCE MEASU	RES:	GO	NOGO	N/A
1. Medic or combat lifesaver	provides medical care until cas	sualties are evacuated or RTD.			
2. PSG monitors casualty ev	acuation.				
3. PSG directs the evacuation	on of casualties, with recommen	dation of the medic, by priority.			
4. PSG directs casualty eva	cuation to the company CCP.				
5. PSG consolidates and for	wards the platoon casualty repo	rts.			
<ol><li>PSG supervises the loadi</li></ol>	ng of all casualties onto vehicles	ð.			
7. PLT conducts CASEVAC	or MEDEVAC of PLT casualties	using manual carries.			
8. Selects appropriate way to	o carry the casualty, 1 or 2 man	carry.			
9. Evacuates casualty witho	ut causing further injury.				
10. Uses available litter or co	onstructs an improvised litter.				
11. Secures casualty to the	litter.				
12. Requests MEDEVAC us	sing the 9-line MEDEVAC forn	nat.			
13. Determines grid coord	inates for the pickup site.				
14. Obtains and sends rad	io call sign, frequency, and s	uffix.			
15. Obtains and sends nur	nber of patients by precedenc	e.			
16. Determines and sends	the type of special equipment	t needed.			
17. Determines and sends	the number and type of paties	nts.			
18. Determines and sends	security of the pickup site.				
19. Determines and sends	how the pickup site will be m	arked.			
20. Determines and sends	the patients nationality and s	tatus.			
21. Determines and sends	CBRN contamination info, if a	any.			
22. Maintains communicatio	n with the helicopter.				
23. Supervises security of la	nding site.				
24. Supervises removal of	dangerous objects prior to ai	rcraft landing.			
25. Ensures LZ is properly n	narked.				
26, Loads casualties in sequ	ence directed by aircraft crew.				
27. KIA and WIA are transpo	orted in separate vehicles.				
28. PSG turns KIA over to c	ompany 1SG.				

TASKS LISTED IN BOLD ARE CRITICAL TASKS AND MUST BE COMPLETED TO PASS EVALUATION. GO REQUIRES 70% COMPLETION OF GRADED PERFORMANCE MEASURES (20/28).

### THE PRINCIPLES OF PATROLLING

**1) PLANNING**: Quickly make a simple plan and effectively communicate it to the lowest level. A great plan that takes forever to complete and is poorly disseminated is not a great plan. Plan and prepare a realistic standard and rehearse everything.

**2) RECONNAISSANCE**: Your responsibility as a leader is to confirm what you think you know, and to learn that which you do not already know.

**3) SECURITY**: Preserve your force as a whole. Every Soldier and rifle counts, either one could be the difference between victory and defeat.

**4) CONTROL**: Clarify the concept of the operation and the commanders intent, coupled with disciplined communications, to bring every Soldier and weapon available to overwhelm the enemy at the decisive point.

**5) COMMON SENSE**: Use all available information and good judgment to make sound, timely decisions.

#### Leadership Assessment

**1. Troop Leading Procedures -** Platoon Leader successfully communicates a tactically/technically sound plan to operationally defeat the enemy.

(POINTS /2)

**2. Communication -** PL-SLs communicate with subordinates in a way that promotes understanding, enabling the subordinates to execute the plan without supervision. Paratroopers use doctrinal terms precisely and share information.

(POINTS /2)

3. **Tactical Problem Solving -** Leaders model sound judgement and engage in thoughtful analysis and assessment. The Platoon makes decisions quickly and confidently in absence of all the information.

<u>(POINTS /2)</u>

4. **Adaptability -** Platoon maintains focus on mission and objectives despite stress and adversity. Platoon quickly recovers from setbacks, learns from adverse situations and grows in resilience.

(POINTS /2)

**5. Command Presence -** Leaders posses a commanding presence that energizes subordinates and display confidence in plan and abilities of themselves and their unit.

(POINTS /2)
