Fort Campbell responded to possible security threat

FORT CAMPBELL, Ky. (Oct. 10, 2025) – Gate 10 has reopened, Mabry gate has closed, and residents in the Woodlands are able to return to their homes.

Early this morning, Fort Campbell Emergency Services responded to an alleged bomb threat in a vehicle at Gate 10. Fort Campbell Emergency Services responded immediately, safely evacuated affected Soldiers and Family members, and cordoned the area. The vehicle was cleared, and no explosives were found.

The driver of the vehicle was detained and transported for evaluation to Blanchfield Army Community Hospital.

“Thankfully there was no threat to Fort Campbell and our local community,” said Col. James Snowden, U.S. Army Fort Campbell Garrison Commander. “Our emergency responders responded quickly to the incident, ensuring the safety and security of our community.”

The incident remains under investigation.
