Attachment 1: Demolish Buildings 7503 and 7851 in Clarksville Base

Attachment 2: Repair Roofs of Buildings 7523, 7526, 7540 and 7620/7621 in Clarksville Base

Attachment 3: Repair Roofs of Buildings 7811, 7825, 7855, 7857, 7858, 7871 and 7874 in Clarksville Base

Attachment 4: Renovate Building 7504 in Clarksville Base

Attachment 5: Construct New PT Equipment outside of Building 7580 in Clarksville Base

Attachment 6: Construct new ASP Facility within Clarksville Base

Attachment 7: Repair Fence and Block Guard Shack at Patrol Loop Bridge (Facility #6663)

Attachment 8: Perform Repairs to Facility #7540

Introduction

In accordance with Stipulation (H) of the *Amended Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (amended December 2015), an annual report of all projects and activities carried out by Fort Campbell and reviewed by the Cultural Resource Management Program (CRMP), at Clarksville Base Historic District must be submitted to the Advisory Council on Historic Preservation (ACHP), Installation Management Command-Atlantic Region, and the Tennessee State Historic Preservation Office (SHPO). The following report includes a list of projects and activities that have been reviewed for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the CRMP between January 2015 and December 2015. This report also includes maps of all areas effected by undertakings.

Clarksville Base Historic District

Overview

The *Amended Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (amended December 2015) covers undertakings within the boundaries of Clarksville Base Historic District. This programmatic agreement was amended in December 2015 to extend the agreement until December 31, 2016. The CRMP is currently working on a new programmatic agreement for operations at Clarksville Base. Fort Campbell will be contacting the TN SHPO to provide comments and suggestions regarding the development of the new Programmatic Agreement during this one (1) year extension.

For management purposes, the CBHD is separated into the Preservation Area and the Development Area (Figure 1). Information on contributing resources in the CBHD are kept on file in the cultural resources database. The district is *Eligible* for listing in the NRHP under Criterion A for its association with the construction and storage of nuclear weapons from the early Cold War.

Figure 1. Clarksville Base

Project Review

National Environmental Policy Act (NEPA) Review

Fort Campbell primarily uses NEPA review as a clearing house for all projects within the installation. A critical part of the NEPA process is reviewing projects for potential effects to historic properties.

Record of Environmental Consideration (RECs)

The Record of Environmental Consideration (REC) is an Army process for internal review of proposed projects in accordance with NEPA. The REC requires multiple disciplines to review projects to determine and comment on potential impacts.

The CRMP reviewed fifteen (15) REC documents specifically concerning the Clarksville Base Historic District. Most frequently, the proposed undertaking is reviewed internally, in accordance with the OCB PA. RECs usually have no effect to historic properties or can be modified, through coordination with the CRMP, by the proponent to avoid effects to historic properties.

In accordance with Stipulation C.2, of the aforementioned agreement, for undertakings regarding properties related to the operation of the former Clarksville Base, standard procedures are followed to allow Fort Campbell to proceed with the project without formal consultation. Stipulation C.2 is listed below:

For undertakings that pose potential effects to the CBHD as a whole and to contributing elements of the district and located in the area illustrated in attachment B, the following standard treatments will be applied:

The Cultural Resources Management program and the Master Planning Branch shall jointly document the following for each project affecting Clarksville Base Historic District or its contributing elements. The documentation will be retained in project planning files:

- a. alternatives considered and/or implemented for avoiding or minimizing adverse effects.*
- b. a list of the contributing elements to be affected by the undertaking.*
- c. documentation of consideration of adaptive re-use of buildings or Structures that are contributing elements in accord with section 111 of the National Historic Preservation Act and E.O. 13287.*
- d. verify that the archival drawings as described in stipulation A.4. have already been completed for the buildings and structures that are contributing elements at issue. The project shall not proceed until this documentation is completed and distributed to the parties as specified in stipulation A.4.*
- e. take a detailed set of digital photographs of each contributing element adversely affected by the undertaking.*
- f. completion of the documentation in sections a-e will constitute evidence that Fort Campbell has complied with section 106 of the NHPA in regard to effects of its undertaking with respect to the Clarksville Base Historic District and this documentation may be cited as such for purposes of any other coordinated planning processes.*

A list of RECs reviewed by the CRMP is included in this document. Sixteen (16) of the REC documents were reviewed by the CRMP in accordance with the programmatic agreement and were determined to have *No Adverse Effect to Historic Properties*. Eight (8) of these RECS required review under stipulation C.2. All supporting documentation for RECS have been added as attachments. Four (4) RECs were forwarded to the TN SHPO in a formal consultation and are detailed below.

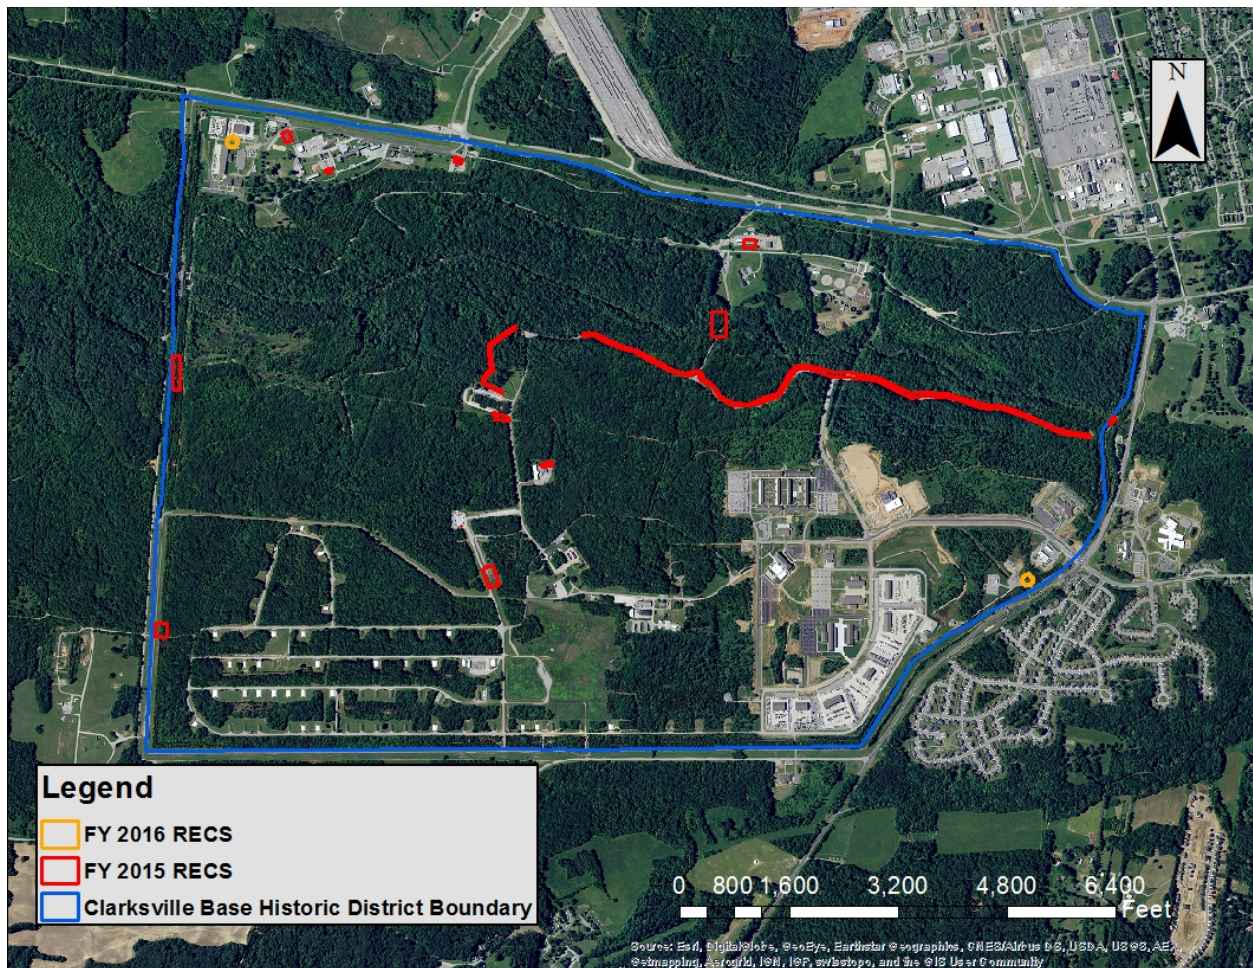

Figure 2. RECS Project Areas

Individual Section 106 Consultation

Under Stipulations E.1 and E.2 of the CBHD programmatic agreement, when undertakings are not exclusively reviewed by Fort Campbell personnel, an individual Section 106 consultation, per 36 CFR 800, with the TN SHPO must be performed before undertaking can proceed. When a Section 106 Consultation is completed, it is forwarded to the SHPO for concurrence with the Army effect determination.

The CRMP completed four (4) Section 106 consultations for undertakings within Clarksville Base. The Section 106 consultations are listed in the attached tables.

Tennessee One Call

The Tennessee One Call is an automated system to serve as a notification for any underground digging that will occur on the installation, in both Tennessee and Kentucky. This automated system notifies callers of any underground utilities buried within the project area. The CRMP receives automated Tennessee One Calls tickets, via email, referencing geographical locations for review for potential impacts to cultural properties. Most Tennessee One Calls are placed for repair and/or maintenance to utility lines and television satellite installation. The CRMP

reviewed 2,926 Tennessee One Calls in 2015, over the entire installation. All Tennessee One Calls were determined to have *No Adverse Effect*, only a portion of these were located within CBHD.

Archaeological Investigation

Phase II archaeological evaluations are under contract with Fort Campbell. Evaluations are to be performed by The Louis Berger Group and New South Associates. The projects will evaluate six (6) sites within the boundary of Clarksville Base Historic District. After receiving the draft reports for these surveys, the CRMP will be forwarding to the TN SHPO for comments.

Conclusion

With the pending updates for the Programmatic Agreement and implementation of the ICRMP, the CRMP can foster consistent and appropriate methods for cultural resource management. The CRMP will be coordinating with the TN SHPO on Programmatic Agreement updates. The Fort Campbell Cultural Resource Management Program s hopes for continued improvement and efficiency in the management of cultural properties within the Clarksville Base Historic District.

List of Record of Environmental Considerations

Determined as having No Adverse Effect to Historic Properties

January 2015-December 2015

REC # 15-	Title
41	Clarksville Base Nature Trail Restrooms
54	CH2M HILL Sanitary Sewer Rehabilitation (FY13 UAV Hangar Complex)

Office of the Garrison Commander

Mr. E. Patrick McIntyre, Jr., Executive Director
Tennessee Historical Commission
Clover Bottom Mansion
2941 Lebanon Road
Nashville, Tennessee 37243-0442

Dear Mr. McIntyre:

In accordance with Stipulation (H) of *Programmatic Agreement Between Fort Campbell and the Tennessee State Historic Preservation Office Regarding Development, Construction and Operations at Clarksville Base Historic District* (Effective January, 2009), Fort Campbell is forwarding an annual report to your office of all projects and activities reviewed by the Cultural Resource Management Program in the Clarksville Base Historic District. This report must be submitted to the Advisory Council on Historic Preservation, Installation Management Command-Atlantic Region and the Tennessee State Historic Preservation Office. This report will include a list of Army projects and activities that have been reviewed, by the Fort Campbell Cultural Resources Office, for possible effects to historic properties, a determination of those effects, a summary of mitigation and/or treatment measures, and a summary of consultation activities performed by the Cultural Resource Management Program for calendar year 2015 at Clarksville Base Historic District.

It is the determination of the US Army that this report meets the requirements of Stipulation (H) of the aforementioned agreement for calendar year 2015. Please accept the enclosed annual report as meeting compliance with Stipulation (H) of the aforementioned agreement.

If you have any further questions, regarding this matter, please contact Mr. Ronald Grayson, Cultural Resources Program Manager at ronald.i.grayson.civ@mail.mil, or telephone 270-412-8174.

Sincerely,

James R. Salome
Colonel, U.S. Army
