## Arrival/Departure Airfield Control Group (A/DACG) Robert Gray Army Airfield

Normal Hours of Operation:  
0800—1530

## A/DACG Mission

The A/DACG will provide the knowledge and skill necessary to ensure effortless deployment and redeployment of troops from a designated Army Power Projection Platform (AP3) and one of two Mobilization Force Generation Installations. A/DACG personnel will provide a specialized skill set, giving units the technical expertise to deploy at a moment's notice.

## Deployment Planning

- \* Contact A/DACG upon notification of movement to establish an air coordination working group. (NLT 35 days prior to ALD)
- \* Define processes and requirements
- \* Establish call forward and loading schedules
- \* Establish container and pre-joint inspection schedules
- \* Confirm mission requirements and movement data
- \* Verify load plans meet mission intent

## A/DACG Load Planners:
