★ Become a DODEA Substitute Teacher!! ★

Reasons to Substitute Teach

- **Make a difference**
Substitutes have the opportunity to positively impact students' lives
- **Flexible schedule**
Looking for job flexibility? Look no further! Our substitutes select the days they are available to work.
- **Expand your skills**
Gaining experience in the classroom setting builds skills that are applicable to many careers, including problem-solving, public speaking, and time management.
- **Join our family**
As a substitute teacher, you become part of our family. If you are ever interested in seeking another position within our organization, your background check will already be complete.
- **It's FUN!**
Substitute teaching is an adventure through which you'll meet many teachers and students

I'd like to substitute, but I don't have a college degree. Can I apply?

Yes! Our minimum requirements for substitutes are:

- High School Diploma or GED
- Resume
- Eligibility Document - A copy of Sponsor's PCS order
- Completion of a Tier 1 childcare background check
- Age 18 or older
- Transcripts if available

How can I apply?

Apply online at USAJOBS.gov using the following link:

Access to Care

Off-Post Medical Care

Nearly all hospitals have English speaking patient liaisons to assist during any hospital visits.

TRICARE Interpreter Support

Navigating Korean hospitals without understanding the language can make things challenging. Feel free to call Tricare's 24/7 language interpretation service at **080-429-0880**. Select option 1 and ask for an interpreter.

TRICARE Overseas Mobile App

The TRICARE Overseas Program provides a mobile app, *MyCareOverseas*, which helps beneficiaries manage host-nation care, access referrals, and stay informed while stationed overseas. This tool is especially useful for navigating off-base medical systems in Korea.

MEDPROS: NCAT Testing Program

New MEDPROS Requirement - NCAT

Currently all Soldiers on peninsula are coded "RED" (Tier I) or "AMBER" (Tier II/III) in MEDPROS for NCAT, which stands for Neuro-Cognitive Assessment Tool. This is a new mandatory requirement under the DOD Cognitive Monitoring Program (CMP). Individuals are categorized into three tiers based on their MOS's level of risk.

Blast Overpressure Exposure Prioritized by MOS		
Tier Level	Description	Suspense
I	SM's duties/position exposes them to overpressure consistently	NLT 1 OCT 2025
II	SM's duties/position exposes them to overpressure frequently	NLT 1 OCT 2026
III	SM's duties/position exposes them to overpressure occasionally	NLT 1 OCT 2027

What is NCAT?

It is DoD policy that all Service members and DoD civilian employees across the deployment cycle will undergo computerized neurocognitive assessment testing. Neurocognitive assessment tools (NCATs) are used to screen for changes in cognitive status over time.

What is ANAM?

The Automated Neuropsychological Assessment Metrics (ANAM) is the DoD-designated neurocognitive assessment tool until evolving science and medical best practices inform a change in policy. It is one of several commercially available neurocognitive tools consisting of a library of computer-based assessments of cognitive domains including attention, concentration, reaction time, memory, processing speed, and decision-making.

Upcoming NCAT Testing in Area IV (10 – 12 SEP)

Units Supported: 2-1 ADA Bn, CTF, 19th ESC*

- **Location:** 2-1 BN Conference Room
- **Dates/Hours:** 10 SEP: 0900-1700 / 11 SEP: 0800-1700 / 12 SEP: 0800-1500
- **Arrive prepared with the following info:** Social Security Number, UIC, and MOS/AOC
- **NOTE:** Only individuals coded **RED (Tier I)** for NCAT in MEDPROS are eligible for testing at this time. **Please verify your NCAT status in MEDPROS.**

*If you are Tier 1, but not assigned to the units mentioned above, contact the 35th ADA BDE Cmd Surgeon: mark.w.betten.mil@army.mil

Patient Family Partnership Council (PFPC)

Apply to be a Council Member!

We're looking for volunteers to become Patient and Family Council Members! We're interested in Senior and Junior **Active-Duty Service Members, Spouses/Family Members**, as well as **Retirees and Civilians**.

WHAT is a PFPC Council Member?

A Council Member is someone who:

- ✓ Wants to help improve the quality of care for all patients and family members.
- ✓ Gives feedback to the medical staff based on their own experience as a patient or family member.
- ✓ Helps plan changes to improve how we take care of patients.
- ✓ Provides a voice that represents all patients and families who receive care at MTFs (Military Treatment Facilities).

WHY should you become a PFPC Council Member?

- ✓ If you or your family member received care at an MTF, did you think there were things we could have done better?
- ✓ Do you have ideas about how to make sure other patients and families get the best care possible?

Council Member Requirements

All Council Members must sign an NDA (Non-Disclosure Agreement)

- ✓ Spouses & Family Members: Must complete HIPAA and Privacy Training.
- ✓ Active Duty & Red Cross Volunteers: No training requirements

DPW

Mr. Cho, Kyu Ha

"Make a Difference"

WE ARE THE ARMY'S HOME

When are we turning off the A/C?

Estimated A/C shut-off schedule is **in early October** once the daily high temperature falls below 85°F on 3 out of 5 consecutive days.

When are we turning on the heating?

Estimated heating activation schedule is **in mid-October** once the daily low temperature drops below 55°F on 3 out of 5 consecutive days.

How do we contact DPW for HVAC (and other) issues?

ArmyMaintenance.com (ArMA) will be the primary channel and phone line (DSN: 763-4824) will remain for emergencies (i.e., Total loss of heat of air conditioning). You can also access ArMA through MyArmyPost App on your smartphone.

★★★★★ “Seriously, it’s *ridiculously* easy to use. I felt like a tech genius and all I did was click a few buttons.” 🤖 💻

★★★★★ “Free. As in zero dollars  . As in why didn’t anyone tell me sooner?!”

★★★★★ “I’ve been living in the dark ages apparently, how did I *not* know this existed? Game changer.” 😊 👍

Pet Transportation Reimbursement

- **Pet Travel Reimbursement**, Pet Expenses Due to Permanent Change of Station
- Pet Transportation Reimbursement effective as of 1 January 2024
- 1 Pet per PCS Household (Cat or Dog)
- \$550 CONUS
- \$2,000 OCONUS

Mechanics of Pet Reimbursement. The expense needs to be claimed in reimbursables and supported by authorization in orders as well as receipt

- Expense will need to be claimed in **Block 18** of the **1351-2** on their travel claim
- Authorization must be included in orders provided, and the SM will also need a valid paid receipt for the expenses claimed
- Credit card/bank statements are not acceptable as receipts because they do not fit the description of what is a valid receipt per the FMR

DoD 7000.14R FMR Vol9 Definitions;

Receipt: A legibly written/printed/electronic document (or facsimile thereof) provided by a service provider or vendor to a customer, which provides documentary evidence that the service provider or vendor has been paid for services or goods, provided to the customer. To be considered valid, a receipt must contain the name of the entity providing the good(s)/service, the date(s) that the good(s)/service was/were provided/purchased, the price of the good(s)/service, any tax levied, the total monetary amount due and must indicate that the total monetary amount due was paid.

- Commercial Air
 - Limited Space – Heat/Bread/Flight time Restrictions
 - Additional cost if space not available
 - May require use of a Pet Shipping Company
 - Passengers can travel with their pets as a carry-on or ship them via Cargo as long as they provide all the necessary carriers for the pet(s), supply any needed documents, and pay the fees
 - You can bring small dogs and cats with you in the cabin, as long as they fit in a small, well-ventilated pet carrier under the seat in front of you. The pet carrier counts as your main carry-on item. You can also bring one additional personal item.
 - Pets must be at least 10 weeks old for domestic travel, at least 16 weeks old if traveling to the U.S. from another country and at least 15 weeks old when traveling to the EU
 - Pets are accepted on a first-come, first-serve basis. You need to call the airline in advance to arrange to bring your pet on board. There are in-cabin limits on the number of total pets per flight and some destinations do not allow pets in the cabin
 - The airlines do not accept pets as checked baggage, but you can ship your pet as freight through airlines Cargo.

- Commercial Air
 - Carry-on pets are not permitted in the following areas:
 - Bulkhead, emergency exit rows
 - Seats designated as “no stowage”
 - Flat-bed seats
 - Rows 30-35 on the A330-200 aircraft
 - Rows 30-43 on the A330 -300 aircraft
 - Center seats on the B757-200 aircraft
- The hard or soft-sided kennels must be leak-proof and have ventilation on 3 sides (4 sides if you are traveling on an international flight)
- All kennels must fit under the seat directly in front of you. Since the space under the seat in front varies from aircraft to aircraft, airlines recommend a soft-sided Kennel with maximum dimensions of 18” x 11” x 11” that will fit most aircraft
- Your pet must never leave the container whether you are at the airport, the boarding area, an airport lounge, or onboard the aircraft. The doors to the kennel must always be secured properly

- Airline cargo policy
 - Transporting your animal through cargo can be stressful for them. When you are bringing them along as a carry-on, at least you are there to comfort them. With cargo, they no longer have that comfort.
 - However, if you cannot accompany your pet for some reason or if your pet is too large for the cabin you will have to use cargo. Remember, Animal Breed Restrictions and tips on Sedation/Tranquilizers mentioned in the carry-on rules, apply to sending animals through cargo
 - A current health certificate by a licensed veterinarian is required within 10 days of the travel date. It must have the following details.
 - Name and address of the shipper.
 - Tag numbers or tattoos assigned to the animal.
 - Age of the animal being shipped: USDA regulation requires animals to be at least 8 weeks old and fully weaned before traveling by cargo domestically, at least 16 weeks old before traveling to the U.S. from other countries.
 - A statement declaring the animal to be in good health (all animals that are pregnant must be declared in the statement).
 - List of administered inoculations when applicable.
 - Your veterinarian's signature and seal (if applicable).
 - Date of issue of the certificate.

- Airline cargo policy
 - You must complete a live animal checklist when you bring your pet in for cargo at Airlines. In it, you must confirm that the animal has been given food and water within four hours of check-in. Additionally, you have to provide feeding instructions and if your pet needs to be fed again during transit, you must provide the food as well.
 - Airlines have a policy of not transporting pets during extreme temperatures for the safety of the animals themselves. This includes temperatures exceeding 80°F (27°C) or temperatures falling below 20°F (-7°C), at any point during the route. A Certificate of Acclimation is required when temperatures fall between 20°F (-7°C) and 45°F (7°C)

- Understand your PCS entitlements
 - Understanding the amount and types of items you are allowed to move — generally referred to as your PCS entitlements — will help with planning. In addition to weight allowances, you can find more information on what items you're allowed to move — from pets and household appliances to lawn furniture, TVs and more. Your local transportation office can also talk you through your specific entitlements during your individual counseling session.
- Luggage, legal documents, medical records, medication/prescription, school records, etc.: place these items either in a LOCKED room, vehicle, or some other secure location to ensure movers do not accidentally pack.
 - If you discover during the move or at a later date that an item you needed has been packed, member could be held liable for any cost associated with finding/retrieving these items.
- Ensure any untidiness of your residence or pickup location will not hinder the movers.
 - Ensure all dishes and clothes are clean prior to mover's arrival.
 - TSPs have the right to refuse entering a residence and packing a shipment where the conditions are deemed unacceptable for any reason.
 - Infestation: there will be no pickup and customer may be held responsible for any cost associated with the clearing of infestation and attempted pickup charges.
 - If there is a dispute as to the cleanliness of the residence, a military Quality Assurance Inspector can be called to come to residence or pickup location.
