

## 21.9 Cu. Ft. Top-Freezer Refrigerator

*carefully read the operating instructions before using the appliance.*

### FEATURES AND BENEFITS

Premium inner door – Enjoy greater flexibility and organizational options with modular bins right on the door

LED lighting – Find all your favorite foods under natural-looking light

Edge-to-edge glass shelves – Enjoy a polished look and easy-access cleaning with edge-to-edge shelves that extend the full width of the refrigerator

Sliding deli drawer – Enjoy greater flexibility in your fridge and easily create more space for tall items with an innovative drawer that can be positioned wherever you prefer

Adjustable wire freezer shelf – Easily adjusts between two positions to accommodate items of all shapes and sizes

ADA-compliant – Designed for easy operation and access

Upfront temperature controls – Easy-to-use controls regulate both fresh food and freezer sections

Factory-installed icemaker – Refrigerator comes ready to automatically create ice

### Temperature Control

The temperature control adjusts the refrigerator from its warmest to coldest settings.

Your refrigerator will come with the recommended factory setting on "3". For colder temperature, turn the knob clockwise to either setting "4" or "5". For warmer temperature, turn the dial counter-clockwise to either setting "1" or "2". To turn off the cooling in both compartments, turn the knob counter-clockwise to setting "Off". Note that this does not shut off power to the refrigerator.

### Garage Operation

Models with dual temperature control have an adjustable freezer control and can be operated in locations with ambient temperatures between 38-110°F (3.3-43.3°C). For cold ambient conditions 38-54°F (3.3-12.2°C) the fresh food should be set to setting 2 to prevent food from freezing in the fresh food compartment, and the freezer setting should be adjusted to position 5 to prevent food from thawing in the freezer compartment.
