ANNOUNCEMENTS AND EVENTS

View this month's issue of the Fort Detrick Standard here:

<https://home.army.mil/detrick/about/Garrison/public-affairs/command-information/fort-detrick-standardweeklies>

**In observance of the Federal Holiday, all visitor centers and gates EXCEPT Nallin Farm Gate at Fort Detrick and Brookville Gate at Forest Glen will be closed Friday, July 3 and Saturday, July 4, 2026
Vetting operations at Fort Detrick will occur at Nallin Gate.**

Old Farm Gate (998 Old Farm Road, off Rosemont Avenue) will be closed on weekends for both entry and exit. Weekday operations (Monday–Friday) remain unchanged.

Weekend Access Instructions:

- During weekend closures, all traffic that would normally use the Old Farm Gate should use the Nallin Farm Gate (9000 Amber Drive, off Opossumtown Pike).
- This applies to everyone entering and exiting the installation on weekends.

Residents and Employees are encouraged to:

- Coordinate with weekend guests in advance.
- Notify delivery services before weekend arrivals.
- Direct all weekend traffic to Nallin Farm Gate.
- Plan ahead to prevent weekend entry delays.

This decision was not made lightly; however, this adjustment is necessary to stabilize our security guard workforce, ensuring we can maintain installation security while taking care of our personnel. We recognize this is an inconvenience and sincerely appreciate your understanding and cooperation as we implement this essential change.

NOTE: Weekly announcements will be sent out every Thursday. If you have an announcement you would like to include, please send the information to usarmy.detrick.usag.mbx.pao@army.mil or call 301-619-2018.

Fireworks Safety

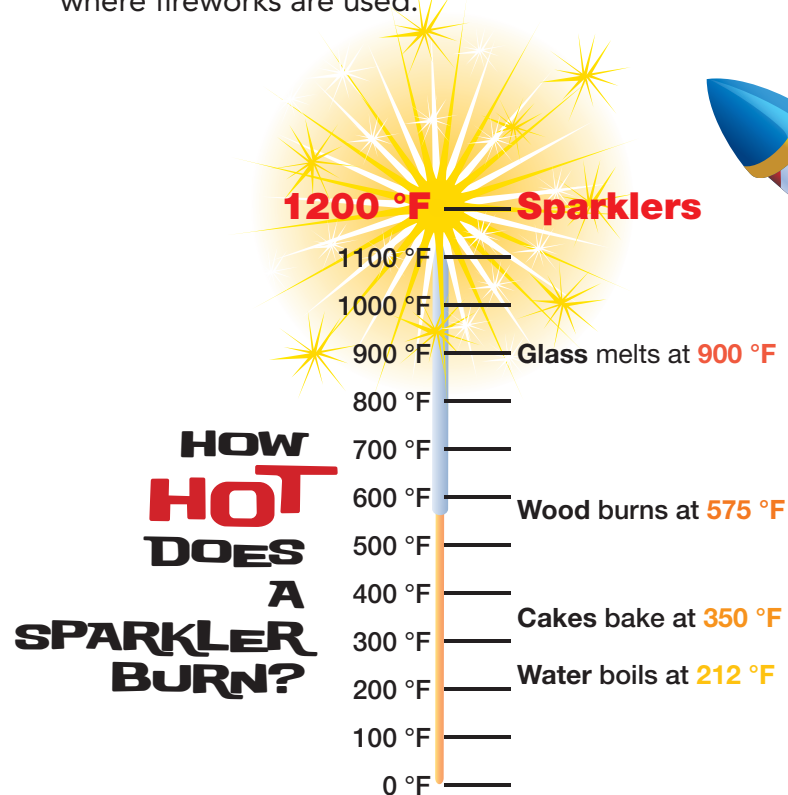

Fireworks are often used to mark special events and holidays. However, they are not safe in the hands of consumers. Fireworks cause thousands of burns and eye injuries each year. People can enjoy fireworks safely if they follow a few simple safety tips:

BE CAREFUL!

- » Be safe. If you want to see fireworks, go to a public show put on by experts.
- » Do not use consumer fireworks.
- » Keep a close eye on children at events where fireworks are used.

CONSUMER FIREWORKS

NFPA is opposed to consumer use of fireworks. This includes sparklers and firecrackers. Even sparklers burn hot enough to cause third-degree burns.

FACTS

- ! Fireworks cause an average of almost 20,000 reported fires per year.
- ! In 2013, sparklers caused 41% of fireworks injuries.

Fire Safety at Your Home Away from Home

Peer-to-peer hospitality services, such as Airbnb, Vacation Rentals by Owner and other types of vacation rentals are not regulated in the same way as hotels. Requirements vary widely across jurisdictions. Act as your own safety advocate and know before you go. Be sure the following safety measures are addressed.

SAFETY TIPS

- ✓ Working smoke alarms are in every sleeping room. They are outside each separate sleeping area. They are on every level of the home.
- ✓ Working smoke alarms are interconnected, if possible. When one alarm sounds, they all sound.
- ✓ Portable fire extinguishers are in the home and are easy to reach.
- ✓ Working carbon monoxide alarms are outside each separate sleeping area. They are on every level of the home and in other locations as required by laws, codes, or standards.
- ✓ The owner has posted a floor plan. It notes all escape routes and exits and provides emergency contact information.
- ✓ Everyone knows the address of the home.
- ✓ Everyone staying in the home has identified two ways out of every room and how to escape in an emergency.
- ✓ All doors and windows that lead outside are able to be opened.
- ✓ An outside meeting place has been chosen. It is a safe distance away from the home.
- ✓ Everyone knows how to call 9-1-1 or the local emergency number from a cell phone from outside.
- ✓ If smoking is allowed, a smoking area has been designated and is well away from the structure. Deep, sturdy ashtrays have been provided.
- ✓ All pathways are free and clear of tripping hazards.
- ✓ Electrical outlets are free from multiple cords and adaptors.
- ✓ The stovetop is clear. Anything that can catch fire is not near the stovetop, such as curtains and towels.

WINDOW AND DOOR ALERT!

Be on the lookout for rooms with tiny windows. These are too small to serve as a means of escape.

Security bars on doors and windows can trap people in a fire. Make sure any security bars have quick-release devices. Tools, keys, or special efforts should not be needed to open them.

KNOW BEFORE YOU GO

Peer-to-peer hospitality services are not regulated in the same way as hotels. Requirements vary widely across jurisdictions. Do your homework before making a reservation. Check online to see your travel destination's regulations for rental properties. Ask your host if the property meets the regulations. Discuss other safety concerns you may have.

Check the forecast in case of storms that could cause power outages; assure the property has equipment (batteries, lanterns, etc.) in the event of a power outage.

Summer Safety Tips

Keep these tips in mind as you and your family enjoy summer vacations, camping, family reunions, picnics and the Fourth of July.

Fire safety

Build campfires at least 25 feet away from tents, shrubs and anything that can burn.

If you want to see fireworks, go to a public show put on by experts. Sparklers can reach 1,200 F and cause third-degree burns.

Use propane, charcoal and wood pellet barbecue grills outdoors only. Indoor use can cause a fire or carbon monoxide poisoning.

Place your grill well away from siding and deck railings and out from under eaves and overhanging branches. Do not store or use a grill on a porch or balcony.

Use chimineas, outdoor fireplaces, and fire pits outdoors only and at least 10 feet away from your home or anything that can burn.
