IAARNG CP Dodge	13 - 17 September 2027
Iowa AAP	20 - 24 September 2027
Kuwait	13 - 24 September 2027

3. Background:

a. The primary objective of the HQDA Ammunition Logistics, Surveillance and Explosives Safety Review Program is to enhance the Army's overall ammunition logistics system. Additionally, this program equips commanders with a tool to evaluate overall operational readiness. It also offers HQDA G-4 and Safety a method to assess operational efficiency and the capability of installations to carry out their Class V mission in a responsible, secure, safe, and environmentally conscious manner.

b. The LRTAO conducts HQDA explosive safety reviews concurrently with the AR 700-13 ammunition logistics reviews. These reviews replace compliance surveys previously conducted by the Department of Defense Explosive Safety Board (DDESB). They will evaluate installation and command explosive safety programs, as well as compliance with DOD and DA explosives safety standards and requirements.

4. Request addressees notify their respective installations and facilitate scheduling of these reviews. Higher-level commands may send one representative to accompany the review team to "observe" the reviews at their subordinate command/unit location.

5. The LRTAO will coordinate directly with the locations to develop the final schedule, itineraries and activities required to conduct the review. In addition, LRTAO will provide detailed guidance on information required and areas/functions to be reviewed in accordance with the stated References.

6. The final schedule will be published in April 2026.

DRAFT

7. The points of contact are as follows:

a. LRTAO: Mr. Terrell L. Wallace, (918) 420-8456 (DSN 956), terrell.l.wallace.civ@army.mil.
