Lease Outside DoD

Renovation

For Demolition Training and Explosive Ordnance Disposal a Shot Plan must be attached. The Shot Plan must identify the range, quantity and DODICs for all munitions that will be used, and measures that will be taken to meet range limits/restrictions.

Project Checklist	Yes	No
1. Will oil, hazardous, or toxic materials be brought onsite? (e.g. paint, chemicals, solvents, etc.)		
2. Will hazardous or toxic waste be generated?		
3. Will fueling/refueling operations be conducted?		
4. Will any materials be removed offsite?		
5. Will non-hazardous solid waste be generated?		
6. Will any digging or excavation occur before or during project/activity?		
7. Will project/activities cause any discharges to soil, drains, or emissions to air?		
8. Will activities include fuel-containing vehicles? (e.g. tankers, tactical vehicles, aircraft, generators, backhoes, cranes, etc.)		

If you answered yes to any of the above please explain:

I, the Project/Activity Coordinator, verify that the information above is accurate and complete.
