

# Energy Action Month Bringing It Home

---

**A WEBINAR ON SAVING ENERGY AND IMPROVING YOUR HOME'S  
COMFORT THROUGH UTILITY EFFICIENCY PROGRAMS - GIVING YOU  
THE #POWER TO WIN**

**OCTOBER 30, 2020 11:00 – 12:00**

# Energy Savings, Comfort, and Resiliency - The #Power to Win for Your Home

---

- Did you know that utility-sponsored energy programs can save you energy, money and the environment, while making your home more comfortable and resilient in cold weather?
- Interested in free energy-saving products, such as LED light bulbs, Smart Power Strips, and programmable thermostats?
- Join the Fort Devens DPW and Mass-Save for a webinar on home energy efficiency. You'll learn how Home Energy Assessments (virtual or in-person, with Covid protocols) identify the measures that make sense for you, estimate the savings and implementation costs, provide incentives, and help you arrange for qualified contractors to install the work.
- This is a sanctioned Army Reserve event, and your attendance is encouraged. The MS Teams meeting link and call-in details are below:
- [Click HERE to join the Webinar on MS Teams](#)
