

# Urban Assault Course

The Fort Devens Urban Assault Course (UAC) will provide basic and advanced training for individual soldiers/squads and platoons for building and room clearing. The urban assault course is able to provide performance oriented training to soldiers for operational aspects, and planning in an urban environment. Leaders must understand how that affects their unit's capabilities as well as their ability to provide support.

This facility is used to train individual Soldiers, squads, and platoons on tasks necessary to operate within a built-up/urban area.

## Station 1: Individual and Team Trainer.

This station is a three-room trainer where team leaders and squad leaders train the basics of building and room clearing.

## Station 2: Squad and Platoon Trainer.

This station is a four-structure trainer with multiple rooms. Squads build upon tasks learned at Station 1 and begin to learn the concepts of clearing multiple buildings. The station is designed in such a way that it can be used as individual buildings with a narrow street or as rooms inside a building with a long connecting hallway.

## Station 3: Grenadier Gunnery Trainer.

This station is a live-fire station where M203 gunners master target engagements in an urban area, move tactically, and respond to the fire commands.

**Station 4: Offense/Defense House.**

This station is where a platoon can train to attack and/or defend a building. This station can also be divided into a number of smaller training stations to reinforce training or to train tasks not yet trained at the other stations.

**Station 5: Underground Trainer.**

This station provides training for subterranean operations. Construction of this facility will be complete in FY 2013.

As part of the Army's Sustainable Range Program we are committed to providing the best possible training events for our soldiers.

Visit the Fort Devens website for more information.
