7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

This years goal was to provide the public with information about Fort Drum's stormwater program. We did this by making the stormwater management plan and MS4 report available on Fort Drum's stormwater website. The 2023 MS4 report will be uploaded to the website for review by May 31, 2023. These documents can also be obtained by contacting Michael Reome or visiting the Environmental Compliance Office on Fort Drum.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Fort Drum's Stormwater Management Plan and stormwater Infrastructure Maintenance Plan were reviewed and updated. No comments were received regarding the MS4 annual report or Stormwater Management Plan. Fort Drum Waste Wizard app was visited 5,297 times where the public can report and inquire about proper disposal of waste. Fort Drum soldiers participate in cleanup events at least twice a year.

C. How many times was this observation measured or evaluated in this reporting period?

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

All outfalls on Fort Drum have been mapped and will continue to be updated as necessary. 48 outfalls were inspected once per quarter for illicit discharges and POCs. Water samples were taken from 41 outfalls to test for pollutants of concern. Buildings across the installation that may contribute POCs to the watershed were inspected monthly for violations. Fort Drum residents and soldiers were given outreach materials on how to prevent illicit discharges.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Dry weather inspections and monthly pollutant of concern inspections indicated no evidence of indirect illicit discharges. Water samples identified one location which exceeded benchmark levels. This location tested high for copper due to an uncovered scrap metal container. The issue was resolved by covering the dumpster which resulted in a clean re-sample.

C. How many times was this observation measured or evaluated in this reporting period?

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Fort Drum will continue to inspect outfalls quarterly and inspect buildings that have the potential to discharge pollutants to water ways. Water samples will be taken biannually at 41 facilities to ensure no pollutants are being released to waterways.
