United States Army Garrison Fort Eisenhower

Public Affairs Office, Darling Hall, Building 33720, Fort Eisenhower, Ga. 30905

Press Release

Date: October 1, 2024

Fort Eisenhower remains closed through Friday

FORT EISENHOWER (October 1, 2024) – Based upon continued degraded conditions on the installation, the Commanding General, Maj. Gen. Ryan M. Janovic, extended the installation closure through Friday, October 4, 2024. Only mission essential & emergency operations persons, as well as residents, will be allowed to enter the gates.

The safety, health, and security of our force and families on & off the installation remains the priority. We will spend the next 48 hours sequentially and safely restoring essential services so we can methodically re-open the installation.

AAFES facilities (to include fuel stations) and FMWR facilities remain closed

The Commissary partially opened today to provide shelf-stable items to on-post residents and trainees. It is not available to off-post beneficiaries until the installation re-opens fully.

We appreciate everyone's patience and understanding as we continue to work through this emergency response and towards the recovery.

Remain safe as you work to recover from this storm.

Individuals requesting Hurricane Helene assistance are reminded that they can call the American Red Cross at 1-877-272-7337.
