PO BOX 31269
FORT GREELY, ALASKA 99731-1269

AMIM-AKG-GZA 27 September 2025

MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Unmanned Aircraft Systems (UAS) on Fort Greely

1. References:

a. 50 U.S. Code, Section 797, "Penalty for Violation of Defense Property Security Regulations".

b. 18 USC Code, Section 39B, “Unsafe operation of unmanned aircraft”

c. Army Regulation 190-13, The Army Physical Security Program, 27 June 2019.

d. Secretary of the Army Memorandum, "Army Policy for Unmanned Aircraft Systems on Army Installations," 1 August 2017.

2. Applicability. This order applies to all military members, DoD civilian employees, invited contractors/technical representatives, dependents, sponsored visitors, and employees on Fort Greely.

3. Increasing UAS activity near Fort Greely raises safety and security concerns. These include overflights of the installation, flight safety hazards to military aircraft, and possible illicit use by criminals and adversaries. This policy is intended to safeguard this installation, its personnel, and the missions of our tenant units and organizations.

4. For security reasons for public safety and operations security, the recreational use of UAS (including, but not limited to, RIC aircraft, quadcopters or drones}, whether or not these are equipped with cameras, is prohibited over DoD lands. This prohibition applies to all grounds and facilities associated with Fort Greely.

5. Residents and organizations within Fort Greely are prohibited from receiving commercial services originating from outside the installation by means of a UAS.

6. Unauthorized use of UAS from within the installation may result in the loss of installation access privileges; potential forfeiture of any unauthorized recordings, photographs, or videos; adverse personnel action; and possible criminal prosecution under Federal or State law, as appropriate, including under 50 U.S.C. 797 for violation of a defense property security regulation.

7. Reporting is an essential element for assessing the potential risk of UAS activity. Anyone observing a non-DoD UAS in operation over Fort Greely should report the

sighting to the Fort Greely Emergency Dispatch Center by calling 907-873-2677/COPS or 911 immediately. Installation law enforcement will:

a. Respond to reports of unauthorized UAS use.

b. Immediately notify Air Traffic Control.

c. Notify the appropriate law enforcement and federal agencies to include Criminal Investigative Division and Counterintelligence.

d. Execute appropriate police action. Any operator found on the installation will be stopped, identified, and interviewed.

e. Report suspicious UAS activity in eGuardian system.

8. All USAG Fort Greely directorates, tenant organizations, and military units assigned to Fort Greely will post this policy in a conspicuous and common area.

9. POC for this policy is the Director, DES, (907) 873-3408.
