

WHEN OPERATING YOUR MOTORCYCLE,
SKILL AND THE PROPER RIDING GEAR
CAN PROTECT YOU.

RIDE FOR LIFE

May is *Motorcycle Safety Awareness Month* and an excellent time to evaluate your current skill level, needed training and PPE. Do you need more training? Are you compliant with the Progressive Motorcycle Program per AR 385-10? Is your riding gear ready for the season? Have you inspected your motorcycle and the most important piece of PPE — *your helmet*?

Don't become a statistic!
