Command Policy Letter #38

12 July 2022

MEMORANDUM FOR: All Members of the USAG Fort Hamilton Community

SUBJECT: Commander's Solid Waste and Recycling Policy

1. Reference: Army Regulation 200-1, Environmental Protection and Enhancement, 13 Dec 2007.
2. Intent: To establish a Fort Hamilton policy on waste reduction and recycling.
3. Applicability: This policy applies to Commanders, Soldiers, civilian employees, managers and supervisors stationed at Fort Hamilton.
4. The keystone to the success of the recycling program is the attitude and support of leaders, Soldiers and civilians. Accordingly:
 - a. Commanders and civilian managers are directly responsible for effective implementation of their organization's recycling programs.
 - b. Fort Hamilton has an effective Building Managers program. The Building Manager of every facility will actively seek new opportunities for waste reduction and recycling in his or her facility.
 - c. For further information, guidance and supplies, contact the Fort Hamilton Recycling Coordinator, Ms. Pallavi Prayaga at (718) 630-4933 or email pallavi.prayaga.civ@army.mil.
5. I expect maximum participation in the recycling program. We need to foster a waste reduction culture for not only what is being carted out of the post but also for what is coming on post that ultimately becomes solid waste.
6. This policy statement will be posted on all official bulletin boards.

BRIAN A. JACOBS
COL, AD
Commanding
