# Community Information

- Wildland Prescribed Fire Burn
  - Scheduled between April 23 and 06 May.
  - Location will be Schofield Barracks Range Complex
  - Start times will vary depending on weather conditions
  - End times will be approximately 1600 daily
  - Approximately 1500 acres will be burned during time allotted
- Prescribed fire burns allow for a safe and effective way to reduce fuels which increase the potential and severity of wildland fires. By reducing the fuel loading on the ranges, the chances of an uncontrollable wildland fire starting are significantly reduced, which allows for more productive and extensive training periods for Army units using the ranges.
