Excerpt from DA PAM 670-1

- a. Boots, combat, tan, leather. The Army combat boots (HW and temperate weather) are clothing bag issue items.
- (1) Description. The two types of issue Army combat boots (HW and temperate weather) are made of flesh-side out cattlehide leather with plain toe and tan outsoles. Soldiers are required to possess two pairs issue Army combat boots (HW) and one pair of issue Army combat boots (temperate weather) (specification) boots.
- (a) The issue Army combat boot, HW, is made of tan-colored, flesh-side out cattlehide leather and nylon duck upper, removable cushioned insert, a closed loop speed lace system, and drainage eyelets.
- (b) The issue Army combat boot, temperate weather, is made of tan-colored, flesh-side out cattlehide leather and nylon upper, a weatherproof-breathable membrane with limited flame resistance, conduction heat resistance and liquid fuel penetration protection, removable insert, and a closed loop speed lace system.

- (2) How worn.
- (a) The boots are laced diagonally with tan laces, with the excess lace tucked into the top of the boot under the bloused trousers or slacks, or wrapped around the top of the boot. Metal or plastic cleats and side tabs are not authorized for wear. Sewn-in or laced-in zipper or Velcro® inserts are not authorized.
- (b) Rubber or pure polyether polyurethane soles are the only outsole material that currently meets the need for durability and traction on surfaces in multiple environments and temperature ranges. Other materials (that may be of a lighter weight) may have significant problems in these areas.

(3) *Optional boots.*

- (a) As an option. Soldiers may wear commercial boots of a design similar to that of the Army combat boot (t). The boots must be between 8 to 10 inches in height and made of

tan fire.sh -s id e out cattJ,eh id e l ea th e .- with a plain toe and a soling system made of poly ether poly urethane are the only outsole materials that are allowed. The soling material will not exceed 2 inches in height when measured up the back of the heel or boot. Over the top of the toe. The exterior of the boot upper will not contain mesh but will be constructed of either all leather or a combination of leather and non mesh.
