

U.S. ARMY SAFE HAVENS

- Safe Havens are pre-designated concrete buildings capable of providing better protection from hurricane winds.
- Safe Havens will open as directed by the Senior Commander, Base Cluster Command or representative.
- They are a place to provide protection from the storm for not more than 24 hours.
- Safe Havens do not provide cots, blankets, food, or water. Pets are allowed only if they are in pet containers/crates. COVID-19 protocols & PPE items such as social distancing, facemasks, and washing of hands will be mandatory.
- Personnel seeking “safe haven” from hurricane winds must bring their own emergency supplies. Personnel will be placed on the floors in the hallways away from windows.
- Personnel in Safe Havens will be released to return to their homes after the “all clear” is given and Safe Havens are no longer needed. Personnel whose homes are damaged will go to the nearest shelter for care and assistance.
- Enclosed slides for list locations of Army Safe Havens and the identification of military units assigned.
