NOTE:

While the majority of listings are legitimate, please be aware that individuals do post property listings to scam potential renters/buyers. Remember, if it is too good to be true, it probably is. Unless you or someone you trust has physically seen a property, do not send personal or financial information to a third party. Always deal locally and in person. Do not wire funds via Western Union, MoneyGram, or any other wire service. Websites like **Crimemapping.com**, etc. is also a great tool to help with your housing research.

This handout is for information only. No endorsement implied for any non-federal entities.
