## **Jungle Operations Training Course**

### **Course Description and Joining Instructions**

**1. Description.** Training is provided by the Lightning Academy, HHBN, 25<sup>th</sup> ID, Schofield Barracks, Hawaii. The 25<sup>th</sup> ID Jungle Operations Training Course (JOTC) focuses on jungle mobility training, waterborne operations, combat tracking, jungle tactics, survival training, and situation awareness exercises at the Squad level. Graduates of JOTC learn tactics, techniques, and procedures required to fight, win, and survive within any jungle environment. The course consists of two weeks of training following the “crawl, walk, run” training progression methodology. Week One builds the individual Student’s basic skills required to shoot, move, and communicate within the tropical environment. Subjects covered include: mobility, waterborne movement, combat tracking, jungle medicine, early warning devices, and camouflage techniques. Students will then demonstrate their understanding through practical exercises. Week Two of JOTC focuses on planning, preparation, and execution of Jungle operations, as well as broadening the Students’ knowledge in employment of the Squad within the tropical environment through a culminating situational training exercise (CULEX). Week Two concludes with the “Green Mile” physical endurance course, followed by recovery and graduation.

Students will be evaluated on critical skills upon arrival at, and throughout, Week One of JOTC. Each Student must pass three out of four events of the Combat Water Survival Assessment (CWSA). Students must also complete the Jungle 5k Run within 40 minutes, and pass Land Navigation under time to remain in the course. Students will also be evaluated on their ability to successfully tie four critical knots and two non-critical knots on Day One of the course. Additionally, Students will be assessed on their ability to tie two rope systems during Week One. Any double failure of a single critical knot or rope system will result in removal from the course. Any double failure of both non-critical knots will result in removal from the course.

**2. Who.** JOTC is open to all military service members. There are no gender or MOS restrictions. There is a maximum of 75 participants in each class. INDO-PACOM personnel from all branches have priority for this course. Other installations (incl. Reserve and National Guard) must contact 25<sup>th</sup> ID G3 Schools at (808) 655-8765 for availability and enrollment. Foreign allies are approved to attend and must coordinate all clearance through the 25<sup>th</sup> ID Chief of Force Integration (Comm: +1-808-655-8887).

**3. Prerequisites.** Students must have a periodic health assessment within the last 12 months (IAW AR 40-501), have a minimum profile serial of 111121 (PULHES), meet the Army height and weight standards (IAW AR 600-9), and have passed the APFT/ACFT (IAW FM 7-22 or service equivalent) prior to class start date. Applicants must have one year of service remaining on active duty upon completion of the course. An equipment inspection must be completed by the Student’s unit prior to

the class start date. Students must also demonstrate the ability to successfully tie the four critical knots and two non-critical knots as verified by the Commanding Officer's signature on the LA 100 form. Instructional videos for the aforementioned knots and harnesses can be found on the Lightning Academy YouTube page @LightningAcademy.
