MEMORANDUM FOR RECORD

SUBJECT: Termination of Evacuation for Department of Defense (DoD) Civilian Employees and their Dependents, and U.S. Servicemembers and their Dependents, Evacuated from Aliamanu Military Reservation

1. References:

- a. Joint Travel Regulations (JTR), Chapter 6
- b. Title 37 U.S.C. § 475a
- c. Title 5 U.S.C. § 5725
- d. Authorized Evacuation of Personnel, Dependents, and Employees Impacted by Water Contamination, Commander, USARPAC Memorandum, dated 9 December 2021
- e. Addendum - Authorized Evacuation of Personnel, Dependents, and Employees Impacted by Water Contamination, Commander, USARPAC Memorandum, dated 10 December 2021
- f. Addendum II - Authorized Evacuation of Personnel, Dependents, and Employees Impacted by Water Contamination, Commander, USARPAC Memorandum, dated 11 December 2021
- g. Amendment of the Hawaii Department of Health Public Health Advisory No. 21-165 related to the Joint Base Pearl Harbor-Hickam Public Water System (PWS NO. 360) Zone H1, dated 3 March 2022
- h. Amendment of the Hawaii Department of Health Public Health Advisory No. 21-165 related to the Joint Base Pearl Harbor-Hickam Public Water System (PWS NO. 360) Flushing Zone H2, dated 10 March 2022
- i. Amendment of the Hawaii Department of Health Public Health Advisory No. 21-165 related to the Joint Base Pearl Harbor-Hickam Public Water System (PWS NO. 360) Flushing Zone H3, dated 10 March 2022

2. On 2 December 2021, I determined that unusual and emergency circumstances existed that warranted an authorized evacuation to a designated safe haven for eligible persons. Eligible persons include personnel identified in references d, e, and f.

APCG

SUBJECT: Termination of Evacuation for Department of Defense Civilian Employees and their Dependents, and U.S. Servicemembers and their Dependents, Evacuated from Aliamanu Military Reservation

3. Servicemembers, residing in impacted areas, were placed on temporary duty (TDY) orders, or provided temporary lodging allowance (TLA), and were not placed in evacuation status.

4. The Hawaii Department of Health (DOH) certified that the water in Aliamanu Military Reservation (AMR) (Flushing Zone H1, H2, and H3) is safe for drinking. The certifications stated that all Navy water system users within each of these zones may now use their water for all purposes, including drinking, cooking, oral hygiene, and consumption by pets. Having reviewed the DOH's findings, in consultation with subject matter experts, I determined that the unusual and emergency circumstances that required evacuation of AMR no longer exist.

5. This message serves as the termination of evacuation status, and safe haven entitlements, for all DoD civilian employees and their dependents, and U.S. Servicemembers' dependents, evacuated from AMR (Zones H1, H2, and H3). Servicemembers living on AMR will return to their normal place of duty and are no longer eligible for entitlements on the basis of the unusual and emergency circumstances that led to the evacuation authorization on 2 December 2021. In order to ensure a safe and orderly transition from the safe haven, the termination of evacuation status and safe haven entitlements is effective two calendar days following the date of this memorandum. If you are receiving a lodging reimbursement, you may check out of the hotel on the morning of 14 March 2022.

6. This memorandum does not affect the evacuation status or safe haven entitlements for eligible persons evacuated on 2 December 2021, per references d, e, and f, not identified in paragraph 5 above. This memorandum does not affect benefits or status of Servicemembers not identified in paragraph 5 above.

CHARLES A. FLYNN  
General, USA
