Community Information Exchange, or CIE, is held every month, and is open to anyone who wishes to attend, including Hawaii Soldiers and family members. The meetings are from 9-10 a.m., the last Wednesday of each month, at Schofield Barracks. Meetings are not held in December. They are also streamed live on the garrison's page.

Community Information Exchange meetings inform Soldiers and families on installation and community matters. The responsibility for conducting Community Information Exchange meetings rests with the garrison commander and the agenda of installation-wide and community-wide topics of interest and concern.

The garrison commander and/or the U.S. Army Hawaii senior commander attends and supports the meetings, along with garrison subject-matter experts and directors.

Slides from the meetings are available to download below. Past meetings can be viewed on [FACEBOOK](#).

## Alternate Ways to Dispose of Unwanted Vehicles

- Donate your vehicle (charitable, tax-deduction, most charities will pick up the vehicle)
- Use the USAG-HI Privately Owned Vehicle (POV) Resale Lot

## Proper Procedures to Sell Your Vehicle

- In the State of Hawaii, vehicle owners must complete and submit a Notice of Transfer form when selling to a Private Party within 10 days of the transfer or sale.
- If you sell your car but do not file a completed **Notice of Transfer** with the Motor Vehicle, Licensing & Permits Division, you may be held financially responsible for fees, fines, and even accidents that occur after the sale.

## Access Control Procedures

- All vehicles and pedestrians are subject to search upon entering USAG-HI Installations based on the current Force Protection Condition (FPCON) and security measures
- All personnel entering Army installations are required to have Identification Cards scanned by handheld scanner
- Applies to Personally Owned Vehicles (POV) as well as Government Owned Vehicles (GOV)
- Guards scan school bus driver's identification card and perform cursory walk through of the bus

## Catalytic Converters

Recently, there has been an uptick in larceny of private property cases in the community. Catalytic Converters are being removed from vehicles in the Schofield Barracks and Wheeler Army Airfield Communities. The Schofield Barracks Military Police are working diligently to prevent future occurrences. Additionally, there are steps you can take to prevent this from happening to your vehicle.

- When going on leave or vacation, relocate your vehicle to a high visibility area. Most cases have occurred in low-lit areas with low foot traffic.
- Have a friend or family member occasionally check your vehicle when you are not able to.
- Residents are encouraged to report this crime to the Military Police if you become a victim.
- Report any signs of suspicious activity to the Schofield Barracks Military Police at (808) 655-5555.

## Crimes of Opportunity

- Catalytic Converters can be removed from almost any vehicle in less than 1 minute using a saw or power tool.
- Vehicles that have a higher ground clearance, such as an SUV or Truck, are at higher risk.
- Catalytic Converters are stolen for the precious metals located inside of the part. The stolen converters are sold to local scrapyards.

## CDC Recommendations

CDC issued a [Health Alert Network \(HAN\) update](#) with the following recommendations for healthcare providers:

- Obtain a detailed travel history for patients being evaluated for fever and acute respiratory illness.
- Identify patients under investigation (PUIs), including those with 1) fever, 2) symptoms of lower respiratory illness, and 3) travel history to Wuhan City, China, within the 14 days prior to symptom onset.
- Ask PUIs to wear a surgical mask as soon as they are identified and finish the evaluation in a private room with the door closed, ideally in an airborne infection isolation room if available.
- Use standard precautions, contact precautions, airborne precautions, and eye protection.
- Immediately notify your healthcare facility's infection control personnel in the event of a PUI for 2019-nCoV (in military treatment facilities (MTFs), also notify the installation's preventive medicine or public health department which will, in turn, notify the state or local health department for inclusion in CDC's [National Notifiable Disease Surveillance System](#)).
- All MTF-level PUIs are to be reported by the local public health authority via the Disease Reporting System internet (DRSi) coordinating with the Service-specific Public Health Center or equivalent.
- At this time, diagnostic testing for 2019-nCoV can be conducted only at CDC. State and local health departments can facilitate specimen processing and testing at CDC.
- The HAN update includes additional information on diagnostic testing, specimen collection, and criteria for PUIs.

For a display of the relevant latest information by country, including case counts by state/territory as well as by MTF, sign up for [Health Surveillance Explorer](#) access.

## CSEC refers to a range of crimes of a sexual nature committed against children and adolescents, including:

- Exploiting a minor through prostitution / escort services;
- exploiting a minor through survival sex (exchanging sex/sexual acts for money or something of value [e.g., shelter, food, drugs]);
- using a minor in pornography;
- exploiting a minor through sex tourism, mail order bride trade, and early marriage; and
- exploiting a minor by having her/him perform in sexual venues (e.g. strip clubs).

# This happens in Hawai'i???

## Portraits of Victims: Hawaii

*1 in 3 young people are approached or recruited*

*By a pimp within 48 hours of being on the streets*

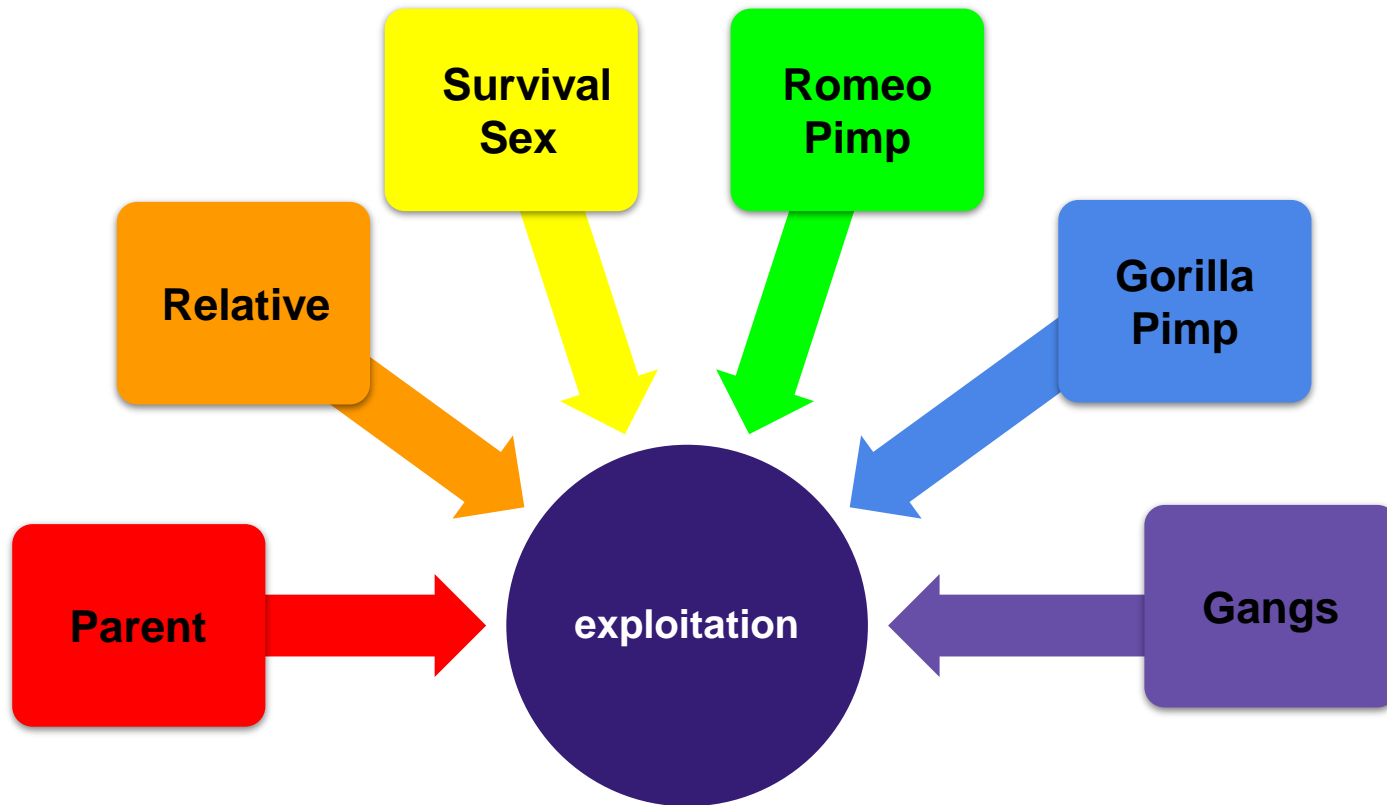

*According to one study, 70% of street youth eventually become victims of some form of CSEC.*

- ✓ **More than 175 children identified as potential CSEC victims in Hawaii during 2018**
- ✓ **125 "high risk" sex-trafficking establishments exist in our state**
- ✓ **There are no socio-economic barriers or boundaries**
- ✓ **An estimated 2,780 Hawai'i youth may be at risk for commercial sexual exploitation. This number is based on an average of 3,976 runaway reports per year in the state of Hawai'i (Attorney General's Uniform Crime Report Statistics, 2003 to 2012).**
- ✓ **In Hawai'i there were reportedly 1,368 adolescents in foster care in 2012, with 611 females being confirmed victims of sexual abuse, physical abuse, or neglect.**
